**October.**  
Rev. W. E. Carr takes charge of  
Ebenezer Presbyterian Church in this  
city.

The sales of cotton at the Exchange  
for the month of September were a little  
more than for the same month last  
year.

Another boat load of Core sound oys-  
ters arrived yesterday. The Captain of  
the boat says they are better this year  
than for many years so early in the sea-  
son.

A wood sloop coming up the river  
yesterday afternoon when opposite  
green spring on the south side of Neuse  
sprang a leak, creased over and sank in  
several feet of water. She was subse-  
quently gotten up and hauled ashore.

Geo. Ashe, the clothier, demands the  
attention of the public in order to call  
attention to his large stock of clothing  
which he has just received. He selects  
a stock with taste and judgment and  
can doubtless furnish a good suit for as  
little money as any merchant. See "a. j."

In the Democratic primaries held in  
Baltimore on Tuesday night last we  
noticed the first ward nominated Geo.  
W. Moore as a candidate for the coun-  
cil. He beat his man one vote, receiv-  
ing 663 to his opponent's 662. Mr.  
Moore is of the firm of Moore & Brady,  
oyster packers, and is well known in  
this city.

Mr. John Dunn had a fire in his back  
yard yesterday which originated in a  
singular way. While opening a box of  
toys packed with fine shavings, when a  
good quantity of them had been taken  
out they suddenly took fire, from what  
source, how or where he has not yet  
been able to ascertain. It blazed so  
suddenly around him that his clothing  
hardly escaped taking fire. It creating  
quite a commotion in the immediate  
neighborhood but no serious damage  
was done.

**The Volunteer Boat Again.**  
The second race between the Volun-  
teer and Thistle came off yesterday, the  
Volunteer winning the race by eleven  
and a half minutes in a run of forty  
miles.

**Steamer Movements.**  
The flag of the E. C. D. line sails  
yesterday afternoon with a cargo of  
cotton and lumber. The Annie will ar-  
rive this morning.

The Hancock of the O. D. line left for  
Wilmington at noon yesterday with a cargo  
of cotton and passengers.

The Margie of the Hyde line will  
leave this morning at 7:30 o'clock for  
Waynesville with a cargo of goods.

The boat of the N. & T. E. line left  
yesterday morning with a cargo of  
goods for Trenton. The Blanche of the  
same line left the Kingston with a cargo  
of goods, and the Kingston of the same  
line left at 4 o'clock this morning for  
Trenton.

**Officers Elected.**  
At the annual meeting of the members  
of the Y. M. C. A. held last evening the  
following officers were elected. Presi-  
dent, Dr. J. D. Clark; Vice-President, C.  
L. Ives; Secretary, D. S. Willis; As-  
sistant Secretary, J. L. McDaniel; Treas-  
urer, W. P. Jones.

**Wholesale Trade.**  
We are glad to see our merchants  
turning their attention more to whole-  
saling. A stock of goods for a village  
or country store can be purchased in  
New Berne on as good or better terms  
than North. Mr. O. Marks was shipping  
several large boxes yesterday and we  
notice some of them were to go well up  
the road. New Berne ought to supply  
every country store in this section, and  
we think a sale is made whenever one  
tries the market.

**The Graded School Organization.**  
The trustees of the Academy held a  
meeting yesterday evening and as-  
signed teachers to the different grades  
as follows: 1st grade, Mrs. A. B. Fer-  
ree; 2d grade, Mrs. Mary Williams;  
3d grade, Miss Hannah T. Oliver; 4th  
grade, Miss Annie Chadwick; 5th grade,  
Miss Jeanette T. Hollister; 6th grade,  
Miss Rachael C. Brookfield.

Miss Brookfield was elected teacher in  
charge for the month of October. The  
school will open next Monday.

**Personal.**

Clement Manly, Esq., left yesterday  
morning for Halifax on professional  
business.

W. W. Clark, Esq., left yesterday  
morning for Raleigh to be in attendance  
of the Supreme Court.

Mr. Wm. Cohen has returned from  
New York with a large stock of goods.  
He was accompanied by his daughter,  
Miss Augusta, who will spend the win-  
ter here with her sister, Mrs. W. H.  
Cohen.

Mr. J. A. Hearahan of Pitt county is  
in the city.

Messrs. M. DeW. Stevenson, O. H.  
Guion and H. R. Bryan leave this  
morning for Raleigh to attend the Su-  
preme Court.

Mrs. Crockett from Hampton, Va.,  
who has been visiting her son, Mr. W.  
F. Crockett, left yesterday on the  
steamer Pamlico on her return trip.

Mrs. J. W. Shepard of Pollockville  
has returned from a visit to Salem.

**What Say the People?**

The question soon will have to be set-  
tled, whether or not the statement of  
the former generation were right. Shall  
deep water be reached by the C. F. &  
Y. V. railroad at Morehead or at Wil-  
mington? This is an important ques-  
tion to us. It may take \$100,000 or so  
to answer it. This paper says let it  
seek deep water at Morehead over the  
A. & N. C. railroad, and this paper says  
so even though it costs Goldsboro  
money, lots of money; but a newspaper  
never yet built a railroad. What say  
our people? The people of Wilmington  
meet today at noon. Shall our people  
meet later? Are the natural advantages  
of Morehead as an outlet, over Wil-  
mington so great, and are these advantages  
so well known, that our people can  
afford to be idle?

The above is from the Goldsboro Ar-  
gus and was prompted by the move-  
ments in Wilmington to secure the C.  
F. & Y. V. outlet. We agree with the  
Argus that this is an important question  
not only to Goldsboro but to this entire  
eastern section, and the people inter-  
ested who have studied the question  
claim and can show that the A. & N. C.  
R. can and ought to be extended to the  
C. F. & Y. V. with the money they have  
already put in it. The A. & N. C. R.,  
as the Argus well knows, has a debt of  
only three hundred and twenty-five  
thousand dollars, and a portion of this  
amount, judging from the last report of  
the Secretary and Treasurer, is still on  
hand to be expended in betterments  
for the road. For the purpose of ex-  
tending to Sanford it could easily carry  
six hundred thousand dollars more. It  
would then have one hundred and sixty  
miles of road with a debt of nine hun-  
dred thousand dollars, and would be in  
a position to pay interest on this amount  
with much more ease than it is paying  
interest on the present amount. It  
would then be independent of the cor-  
porations that have already bottled us  
up at Goldsboro; it would restore to  
New Berne her corn trade that has been  
diverted by these corporations that  
claim that the A. & N. C. R. has no  
right at Goldsboro that they are bound  
to respect; it would open the way to  
make Morehead City what the state-  
men of the past contended that it ought  
to be.

There is another view of this ques-  
tion. The State is now paying out  
annually between fifteen and twenty  
thousand dollars interest on her bonds  
for the construction of the A. & N. C.  
R. and not one cent of this is being re-  
turned to the treasury, nor will there  
be until the road is extended and be-  
comes a part of a long line extending  
through the State with deep water out-  
let at Morehead City. Is it just to our

tax payers of the State to allow this  
piece of property to remain a burden  
upon them when there is an opportunity  
to lift it? Let the road extend itself to  
Sanford or Fayetteville and give the C.  
F. & Y. V. a deep water outlet. We  
believe a majority of the private stock-  
holders will favor such a move and we  
know the people of Lenoir, Craven and  
Pamlico counties who own two hun-  
dred thousand dollars worth of stock  
are in favor of it.

We don't know how far the Argus  
and its friends will go in this matter  
but the people in this section are de-  
termined to have something done if they  
have to carry it into the campaign next  
year. We want no candidate for Gov-  
ernor who is unfriendly to an extension  
of the A. & N. C. R.

**Alaska's Seal Fisheries.**

WASHINGTON, Sept. 28.—The contro-  
versy between the United States and  
the British government growing out of  
the capture of certain British vessels  
engaged in seal catching in Behring sea  
is still being agitated. Secretary Bayard  
was today shown a statement re-  
cently telegraphed from Ottawa to the  
effect that certain instructions to the  
United States district judge and district  
attorney in Alaska, from Attorney-  
General Garland, promulgated January  
26, 1887, have not been carried out to  
this day. The Attorney General's in-  
structions on the subject were as fol-  
lows: "I am directed by the President  
to instruct you to discontinue all pro-  
ceedings in the matter of seizure of the  
British vessels Caroline, Onward and  
Thornton, and to discharge all vessels  
now held under such seizure and re-  
lease all persons that may be under  
arrest in connection therewith."

**A. H. GARDNER.**

It is further stated that Judge Dawson  
issued an order to the marshal to release  
the vessels, but afterwards withdrew it,  
and the vessels are still beached at  
Ounalska, where the seal skins found  
upon them were sent to San Francisco.

The Secretary, after reading care-  
fully the article referred to, said he  
could not believe an officer of the gov-  
ernment located at Alaska or at any  
other point would willfully disregard  
an order issued upon the authority of  
the President, issued upon the laws of  
our country, and therefore there must  
be a mistake in the statement tele-  
graphed from Ottawa. He then went  
on to say that as soon as the inter-  
national point growing out of the cap-  
ture of the British sealers was brought  
to his attention he promptly consulted  
Attorney-General Garland, and from  
him learned the legal points in the case.

There are several law questions in-  
volved, which can only be settled by  
the courts after due deliberation. In  
the meantime the vessels and crews are  
not detained by the United States au-  
thorities, and the owners can have them  
if they will go or send after them. The  
vessels in question are deckless boats  
or fishing smacks, of but little value,  
which probably accounts for the lack of  
inclination on the part of their owners  
to go after them. They are beached in  
a rough, rude region, about two hun-  
dred miles from any settlement, and  
their owners probably do not consider  
them worth going after. One of the  
main points which led to the discon-  
tinuance of the proceedings with regard  
to these vessels was their trifling value,  
and up to the present time the United  
States has not been asked to pay a  
single cent of damages. The question  
growing out of the catching of seals is  
the most important one the United  
States has to deal with in this connec-  
tion, and, while it is the purpose of this  
administration to defend the rights of  
American citizens in all parts of the  
world, it is also desirable to know and  
respect the law on the subject. Seal  
catching is a valuable industry in which  
more than 15,000 persons are actively  
employed, and the Alaska Seal Com-  
pany is doubtless anxious to preserve  
its rights, according to its understand-  
ing of the contracts it has with the  
United States as well as with Russia.  
This company pays so much per skin  
for every seal killed, and its contract,  
which terminates in 1890, is for twenty  
years. Under the terms of the contract  
they are permitted to kill seal on two  
islands only, and it is probably their  
desire that the seal skin market shall  
not be overstocked. This company  
naturally exerts considerable influence  
in Alaska, and it may be that they were  
instrumental in raising this question  
with a view to having it disposed of.  
Since the three smaller vessels were  
seized larger ships have been drawn  
into the controversy, and the whole  
subject will be considered together.  
There has been no unnecessary delay,  
so far as the State Department knows,  
and the case is now awaiting its turn  
in the courts.—Balt. Sun.

**To the Subscribers of the New Berne  
Building and Loan Association.**

At a meeting of the Directors held on  
the 28th inst., the following resolution  
was passed:

Resolved, That the Secretary and  
Treasurer be instructed to give notice  
that he would be in attendance to re-  
ceive the dues of the stockholders at  
some place designated by him on the  
evening of the first business day of each  
and every month.

In accordance with above resolution  
I hereby notify all subscribers that I  
will be at Hancock's drug store on Sat-  
urday night, Oct. 1st, from 7 to 9 p. m.,  
and request that all will be prompt in  
making their payments.

J. R. B. CARRAWAY,  
Sec. and Treas.

**Shot on German Territory.**

BERLIN, Sept. 28.—The public prose-  
cutor at Colmar has made an inquiry  
into the circumstances connected with  
the shooting affair on the Franco-Ger-  
man frontier, near Raonsur-Plaine, on  
Saturday last, and reports that Kauf-  
mann, the soldier who was detailed to  
assist the forest guard in preventing  
poaching, and who did the shooting,  
saw twelve persons in the pine forests  
on German territory, walking in the di-  
rection of the French frontier. Kauf-  
mann called three times for the party to  
halt, but no attention was paid to his  
summons and he fired. Then, seeing  
guns leveled at him from behind some  
trees on the French side of the boundary  
he retreated from his position. One of  
the forest guard, named Linhof, was a  
witness to the whole affair and corrob-  
orates Kaufmann's statement. Two  
large blood spots were found on the  
French side, five yards from the fron-  
tier, which are taken as evidence that  
Brignon, the game beater for the  
French party, who died from his  
wounds, dragged himself to the spot  
after being wounded and lay there for  
some time. No blood marks or foot  
prints were seen on the German side of  
the frontier, there being a high growth  
of heather thereabouts. Owing to the  
density of the undergrowth of bushes  
and the thickness of the trees, it would  
have been impossible for Kaufmann  
from the spot where he fired to have  
seen the place where the blood marks  
were found or to have shot any one  
there. It is therefore assumed by the  
public prosecutor that the shots were  
fired and took effect on German terri-  
tory. The North German Gazette de-  
plores the incident, and says: "We  
must await the result of the judicial in-  
quiry before taking any action in the  
matter."

**Renews Her Youth.**

Mrs. Phoebe Chesley, Peterson, Clay  
Co., Iowa, tells the following remark-  
able story, the truth of which is vouch-  
ered for by the residents of the town: "I am  
73 years old, have been troubled with  
kidney complaint and lameness for  
many years; could not dress myself  
without help. Now I am free from all  
pain and soreness, and am able to do  
all my own housework. I owe my  
thanks to Electric Bitters for having re-  
newed my youth, and removed com-  
pletely all diseases and pain. Try a  
bottle, only 50c. at R. N. Duffy's drug  
store.

## What a Cent Can Do.

It is almost impossible to attach any  
importance to one cent, but at the same  
time it is a very important coin at times,  
says an exchange. It will take a cir-  
cular to California, and it will make you  
madder than a batter and a March hare  
combined when you go to pay your fare  
on a horse car and find that you have  
not four cents and a ten-dollar bill.  
One cent is very small, but when it is  
added to the rate of interest you re-  
ceive on a stock it possesses a stern,  
magnificent grandeur that carries you  
away like a strain of music. The penny,  
it seems, was made to put on church  
plates, and, although a man may say it  
amounts to nothing, he will strike  
matches and lift mats and crawl about  
in the straw on a horse car to find the  
one he drops. It is so small a coin that  
you have to take off your glove to take  
hold of it in your pocket, and yet it is so  
large, when the baby swallows it, the  
chances of the baby's living are some-  
times not worth a cent. Although one  
cent is less than ten cents, yet one cent  
is a great deal larger than a dime.  
Many a man has gone thirsty all day  
with four cents in his pocket. For the  
want of that one cent the four were as  
useless as the eleven men on the jury  
who are held out against by one Dry  
Goods Chronicle.

Salvation Oil, the greatest cure on  
earth for pain, has made a most brilliant  
debut. Price, 25 cts.

Philosophers say that affairs should  
always be conducted with a view to  
the greatest good of the greatest number.  
Dr. Bull's Cough Syrup does the greatest  
good to the greatest number. Cents.

**The President's Special Train.**

WILMINGTON, DEL., Sept. 28.—The  
special train of three cars which are to  
carry the presidential party on their  
Western and Southern tour is being  
completed at the Pullman shops in  
this city. Over fifty skilled workmen have  
been employed on the cars for the last  
ten days, and they will be the hand-  
somest in finish and the most complete  
in the world. The train is made up of  
the Allarata, a vestibule car of the  
Pennsylvania Railroad, the Velasco,  
a vestibule sleeper, and Mr. Pullman's  
private car, P. P. C. An engine and  
dynamo in the forward car will fur-  
nish electric light for the train, which  
will also be furnished with electric call  
bells. It is the most elaborate work  
ever done by the Pullman Company,  
and its value will exceed \$200,000. The  
train will leave for Washington to-  
morrow morning.

The baby has its preferences as well  
as anybody, and the taste of Dr. Bull's  
Baby Syrup renders it acceptable to  
every infant. Price 25 cents a bottle.

You are aware of course that inactiv-  
ity induces dyspepsia with all its  
wretched consequences. The remedies  
needed for such cases are judicious ex-  
ercise and laxador. Price 25 cents.
