

A Positive Proof that Cancer can be Cured.

Mr. A. R. Shands is a well known farmer, whose residence is in Spartanburg, S. C. He is a man of means and education. His standing in his community is all for truth and probity. While Mr. Shands refrains from using the word cancer, the facts he gives settles the question of the nature of his disease. He says his physicians never said the sore was a cancer, but that they all warned him that there was great danger that it might turn into a cancer. At any rate, none of them could afford Mr. Shands the slightest relief, and finally he was cured by S. S. S., the finest and only absolutely certain blood purifier in the world. Below is Mr. Shands' own letter about his cure. Let any one suffering from a similar ailment write to Mr. Shands, and learn from him the exact effects of the wonderful medicine that cured him:

SPARTANBURG, S. C., April 2, 1887.

Gentlemen—For twenty years I have had a sore on my left cheek. It had gradually been growing worse. The many physicians whom I had consulted were unable to do me any good. Last fall a year ago I began using S. S. S. At first it inflamed the sore, and it became more virulent than ever; so much so indeed that my family insisted that I should leave off the medicine. I persisted in using the S. S. S. At the end of two months the sore was entirely healed. Thinking that the evil was out of my constitution I left off the medicine; but in November, ten months after, a very slight breaking out appeared. I at once began again on S. S. S. and now that is disappearing. I have every faith in S. S. S. It has done me more good than all the doctors and other medicines I ever took. Yours truly,

A. R. SHANDS.

—We clip the following from the last number of the Biblical Recorder, concerning Judge Merrimon and disagreeing Jurors. Read it:

North Carolina has been fortunate in her judiciary. Only in a few instances have her rights been violated by corrupt men, and those instances were during the years that immediately followed the war, when affairs were in an unsettled condition. Then, sometimes they would forget their high responsibility. Things are better now. Since the days of Gaston and Badger, we have not had a purer judiciary. All of them are not strong, but all are just. Some of them have not been surpassed. Of the Judges of the Superior court, Judge Walter Clark has, in many respects, placed himself at the head. He has rendered most efficient service to his State by his just decisions, and the intrepidity with which he has brought to justice some who hitherto have laughed defiance at the law, has greatly endeared him to all North Carolinians who have the good of the commonwealth at heart.

But the object of this article is not to speak particularly of the excellence of our judiciary, nor of Judge Clark. We merely wish to call the attention of the people to an act of kindness done them by Judge J. H. Merrimon, also an able Judge. All honor to him. We are pleased to witness his fidelity to his high position and to the people who placed him there. At the Superior Court last week, a man was indicted for selling whiskey to minors. The evidence against him was unbroken, and came from three quarters. Judge Merrimon instructed the jury that the evidence from either quarter was sufficient to convict. The jury retired, and eleven of them decided to acquit, evidence or no evidence! Was there ever such impudence! such unbridled audacity! such disregard of law and order! But Judge Merrimon was equal to the emergency. Forthwith he dismissed those eleven wretched men, with the instruction to the Sheriff of the county to enter their names as men disqualified henceforth, to serve as jurors.

This may, at first, seem a little thing to some people. If so, all the worse for them. Just this sort of thing has been winked at too often, with a semblance of justice and a Uriah Heep sort of humility. The eagle eye that discovered the fraud in the case above alluded to, has done us a great service, and is peculiarly fitted to be part of that branch of the government that interprets law and administers justice.

A Valuable Resource For the Sick.

Among the many resources which medical skill has made available for the sick and debilitated, none rank higher than Simmons Liver Regulator, a comprehensive remedy for LIVER COMPLAINT, DYSPESIA, CONSTIPATION, CHILLS AND FEVER, DEBILITY, NERVOUSNESS, SICK HEADACHE, and other ailments attributed to BILIOUSNESS. Purely Vegetable.

It relaxes the bowels without griping, purifies a bilious breath, and completely relieves the many indescribable symptoms which torment sufferers from Dyspepsia, Liver Complaint and Kidney troubles. It also effectually removes those nervous symptoms felt when bile is imperfectly secreted or is misdirected. Demand the GENUINE, which has our Z Trade-Mark in red, on front of wrapper.

DISCRIMINATION.—We do not oppose immigration but wish to say that we should, now while we may, learn a valuable lesson from the North and West on this question. Many years ago both these sections gloried in their immigration. It brought wealth and population. But that time has passed. The present cry is restriction. Castle Garden is about to make America a poor-house. That which was a mine of wealth has become one of death. A strata has been struck which yields neither sand, quartz nor diamonds, but filth. Socialists and anarchists constantly join their brethren already here. A writer in the last Century, thus speaks of this: "Our dangerous classes have been increased of late years, by the addition of a still more dangerous class, one of which is amenable to none of the influences by which society has hitherto dealt with the others. Its numbers are no larger than those of bears or panthers or other wild beasts. But it has human intelligence, superimposed upon the instincts of the wild beast; its members have the power and will work destruction to which the mere brute is incompetent; and yet their human lineaments prevent society from dealing with them in their property capacity until after they have wrought their evil work." We believe we utter the sentiments of every true North Carolinian when we say that we do not want any of this class of immigrants. It is all well enough to bring forth from its long hiding place the bright example of Rome, and tell us that this, the world's proud master, was at first peopled with scoundrels and murderers; nor will we yield even to Mr. Gilmore in his assertion that North Carolina's colonial population was made up of worthless trash and runaways from Virginia. Despite what some of the doctors say, we still believe somewhat in heredity. Anarchists and socialists, therefore, scattered over our State might not improve our blood, our government, nor our morals, either in this generation or in the third and fourth.

The office which in North Carolina has heretofore been considered of small moment, is that of the Agent of Immigration. It should become most important. There should be no more piddling. The changing times make it so. Every man who comes into North Carolina to settle permanently, he should come through the permission and patronage of this bureau. Thus tramps and scoundrels may be avoided. This flowery kingdom called the South will not much longer be overlooked by the immigrant. He is coming. He will come with the ebb-tide. But let him come who comes to work, to invest his capital, and to obey our laws.—Biblical Recorder.
