

**KURFEES**  
Pure Paint

**"Tempered to the Weather"**

Kurfees Paint is "tempered" just like the finest steel in a keen blade—it is developed from pure raw products, by gradual stages and through many thorough processes into a weather-resisting paint that "sets" with a surface of tough film that glistens like polished enamel.

And—more than that—it spreads easily and smoothly, and covers an unusually large surface per gallon, and resists the ever-changing attacks of weather.

*Combining Beauty and Economy*

Whether you paint for Beauty, for Preservation or for both, Kurfees Paint has special advantages to offer you. Every man who has ever used Kurfees knows that the claims made for it are not "stretched."

By putting Kurfees Paint to the actual test he has proved that it is good, pure paint with a special "temper" that makes it last longer. One user tells his neighbor, and each year, for over a quarter of a century, has brought more property owners to the realization that there must be something different and better about Kurfees Paint. The reason is so secret—it's because Kurfees Paint is "tempered to the weather."

Before you buy any paint—let us tell you more about Kurfees—it will save you money

**We went Fishing**

March and April have been very busy months for us.

Our men have worked overtime during the past forty days and before the rush season started we decided to have a fishing trip. Wednesday at 4 p. m. we closed up, went to the lake, caught plenty of fish, ate all we could and everybody had a good time.

Now we are back on the job ready and anxious to give that "Superior Ford Service."
