Glovmakers and shoemakers find that the hands and feet of women are a size larger than they were 12 years ago. Tennis, golf, hiking—all kinds of athletics—are the cause of the change, says Collier's. And it is no longer thought that a capable hand and a substantial foot are incompatible with beauty and refinement. Athletics explain why the armor-plate corset is gone, why short skirts, bobbed hair, and the outing costume are bound to stay. Women have not simply been emancipated from, they have been emancipated into something. That's why the gain is permanent. Mary Walker and other dress reformers should have preached athletics when they sought to improve women's clothing instead of—just preaching.

Efficiency engineers in Norway have completed an unusual task, the best results yet shown in such tests being in evidence, when they completed the manufacture of 200 pairs of men's boots, 25 pairs of men's shoes, many gross of stout leather shoestrings and more than 100 feet of heavy belting, all made from the hide of one large whale that had been taken by whale hunters and towed into shore. The carcass yielded also large quantities of all a big store of bone, a considerable quantity of fertilizer and an uncounted number of souvenirs.

There is no such thing as one being satisfied with his government, the telephone service, the gas pressure or with the religious and political views of one's neighbors. So if a fellow is content with his car, his pastor and his washerwoman, we reckon he is scoring heavily for happiness in this vale of tears.

A Cleveland minister suggests that women should do the courting, and many a young man will agree heartily. Flowers and taxis and candy are a strain on the young lover's finances—why shouldn't the girl furnish these things, and give him a chance to save something on the home?

MRS. BONNER RAY HOSTESS.

On Friday afternoon Mrs. Bonner Ray entertained in compliment to Mrs. Grady Boyd. The affair was a miscellaneous shower. Vases of roses and iris added to the attractiveness of the living room. Shortly after the arrival of the guests little Catherine Martin and Ernest Withers, Jr., as a bridal couple, entered to the strains of the wedding march. The gifts for the honoree were cleverly concealed under the bride's bouquet, each gift holding a lucky four leaf clover. The hostess, assisted by Mrs. Chas. Ray, Mrs. E. L. Withers and Mrs. Hugh Massie, served a salad course.

Among those present in addition to those mentioned, were Mesdames J. W. Reed, N. M. Medford, Roy Martin, David Miller, H. B. Atkins, C. M. Dicus, J. H. Way, Jr. and the Misses Nora Massie, Georgia Miller, Owenby of Canton, Fannie Pearl Campbell and Josephine Thomas.

LEATHERWOOD-GALLIENNE.

At half past four o'clock in the afternoon of Friday, May 15, Miss Helen Louise Leatherwood and Mr. Everett J. Gallienne were united in marriage by Rev. Frank Siler at the home of Mr. and Mrs. Herbert Gibson of Lake Junaluska. Mr. Guy McCracken, a special friend of the groom, and a few close friends of the bride, were the only persons present at the ceremony.

Miss Leatherwood, who is a niece of Mrs. Herbert Gibson, is the eldest daughter of Mr. and Mrs. Robert Vance Leatherwood of East Waynesville. Educated in the schools of Waynesville, where she always had high standing, she has been for the past two years stenographer for the law firm of Smathers and Robinson in Canton. She is a lovely young woman of noble character and deservedly popular in a wide circle of friends.

Mr. Gallienne formerly of Leicester is a young man of fine promise who has been for some time connected with the electrical department of the Champion Fibre Company. The good wishes of many friends will follow this young couple into their life together. They will be for the present at the Higgs Boarding House in Canton.
