Beauty . . .  
Performance . . .  
Price . . .  
Not one . . . But All Three . . .

Those who want a moderate-priced car need no longer sacrifice something of beauty, or of performance. For now—they can buy an Oldsmobile Six, and get, not one, or two, but all three of these qualities. More expensive cars do equal its beauty and match its performance.

But what other one car offers comparable beauty and comparable performance at a comparable price?

By far the most convincing proof we can offer is the car itself. Just look at it—then drive it—and your admiration will be won! Telephone or call and we will gladly loan you a car.

### KING OF THE RODEOS

(Copyright by R. R. Doubleday.)

Tex Austin, a name that is known in every locality in the country where horses are bred or cattle raised. Such is the man who will draw on his years of experience to manage the Chicago Roundup and World's Championship Rodeo to be held for nine days, beginning August 15.

"King of the Rodeo" is the title Austin has won. Born in the great state for which he was named, he was raised in the atmosphere of the range. He participated in the thrilling deeds of the famous contests of the Far West and then became a ranchman himself. Wherever the roundups have been staged, Austin's name has become synonymous with the cowboy sport. In the effort to perpetuate the spirit of the West, he managed and directed numberless rodeos in the West, also giving the East its first thrills from cowboy contests. Then, spreading the fame of Uncle Sam further, he put on the great international rodeo at Wembley, England, under the auspices of the British government.

"Expert and daring" leaders in the great sport to which they have brought fame, are the cowgirls from the western ranges who will compete in the Chicago Roundup and World's Championship Rodeo, to be held for nine days beginning August 15. Champions past and present, as well as new seekers after fame, will add thrills to the cowboy contests which will be presented in the new \$5,000,000 stadium under the auspices of the Chicago Association of Commerce. A group of these cowgirls started the staid Britisher when they appeared in the international Championship held by Tex Austin at Wembley, England, recently, and the same champions will compete in the Chicago spectacle. Austin is organizing the Chicago roundup and will manage it, and the \$50,000 in prizes is the largest amount offered for any contest this year.

#### FEEDING BABY DURING SUMMER

Milk is recognized as the ideal food for young children. It should be carefully guarded during the warm summer months, to insure its freedom from germs or bacteria that might cause harm to the child. Because of its nature, it is, under certain conditions, a breeding and propagating ground for germ life and may soon become unfit for use unless it is handled with the utmost care and vigilance. Perhaps the ideal way to obviate this risk is through the use of evaporated milk. This milk is only pure milk with sixty per cent of the water removed from it and is absolutely sterile. It is of double richness but may be modified by the addition of water which will return it to its normal volume with a greatly increased food value.

Evaporated milk is sterile and contains a high nutrient content. This makes it the most convenient food for the young child, and the mainstay in fact, many of the leading pediatricians of the country advocate its use after the child is deprived of its mother's milk. A formula evolved by these pediatricians through experimentation, is as follows:

- From Sixth Week to Third Month.
  - Milk, evaporated . . . . . 8 ounces
  - Lime water . . . . . 3 ounces
  - Milk sugar . . . . . 2 ounces
  - Bolled water . . . . . 26 ounces
- Seven feedings in twenty-four hours; 4 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.
- From Third Month to Fifth Month.
  - Milk, evaporated . . . . . 7 1/2 ounces
  - Lime water . . . . . 3 ounces
  - Milk sugar . . . . . 2 ounces
  - Bolled water . . . . . 29 1/2 ounces
- Six feedings in twenty-four hours; 5 to 6 ounces at three-hour intervals during the day and a feeding at 10 p. m.
- From Fifth to Seventh Month.
  - Milk, evaporated . . . . . 10 ounces
  - Lime water . . . . . 3 ounces
  - Milk sugar . . . . . 2 ounces
  - Bolled water . . . . . 29 ounces
- Five feedings in twenty-four hours; 6 to 7 ounces at four-hour intervals, the last feeding to be given at 10 p. m.
- From Seventh to Ninth Month.
  - Milk, evaporated . . . . . 11 ounces
  - Lime water . . . . . 3 ounces
  - Milk sugar . . . . . 2 ounces
  - Bolled water . . . . . 35 ounces
- 7 to 9 ounces at four-hour intervals during the day. Last feeding at ten at night.
- From Ninth to Twelfth Month.
  - Milk, evaporated . . . . . 13 ounces
  - Lime water . . . . . 3 ounces
  - Milk sugar . . . . . 2 ounces
  - Barley water . . . . . 84 ounces
- 8 to 9 ounces at four-hour intervals during day. Last feeding at ten at night.
