THE SOUTHERN SERVES THE SOUTH

A country can grow no faster than its railroads

It is recognized that the South today offers remarkable opportunities for the profitable investment of capital.

But, if freight service is to be adequate to care for the increased output of factories, mines, farms and forests, a very considerable part of this new capital will have to be devoted to railroad development.

Investors will naturally place their funds in securities yielding attractive and assured returns. The Southern Railway Company, like any other business, will have to bid for its funds in the general investment markets.

The ability of the Southern to obtain needed new capital will depend on its earning power and the rate of return it offers investors.

EAT TOO FAST

South Carolinian Took Black-Draught For Indigestion, and Says He Could Soon Eat Anything.

Ballentine, S. C.—Mr. W. B. Bouknight, of this place, gave the following account of his use of Theford's Black-Draught.
"Just after I married I had indigestion. Working out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel stupid and drowsy, didn't feel like working. I was told it was indigestion. Some one recommended Black-Draught and I took it after meals. I soon could eat anything any time."

"I use it for colds and biliousness and it will knock out a cold and carry away the bile better and quicker than any liver medicine I have ever found."
Eating too fast, too much, or faulty chewing of your food, often causes discomfort after meals. A pinch of Black-Draught, washed down with a swallow of water, will help to bring prompt relief. Bloating, sensations, eructations, bad breath and other common symptoms of indigestion have disappeared after Black-Draught has been taken for several days. NC-144
