

"PE-RU-NA WORKED SIMPLY MARVELOUS"

Suffered Severely
With Headaches—
Unable to Work.

Miss Lucy V. McKinney, 432 3rd Ave., Brooklyn, N. Y. writes:

"For many months I suffered severely from headaches and pains in the side and back, sometimes being unable to attend to my daily work. I am better now, thanks to Peruna, and am able to do my usual work with no more headaches."

"The way Peruna worked in my case was simply marvelous."

We have in our file many grateful letters from women who have suffered with the symptoms named above. Lack of space prevents our giving more than one testimonial here.

It is impossible to even approximate the great amount of suffering which Peruna has relieved, or the number of women who have been restored to health and strength by its faithful use.

Col. R. S. Harrison, Deputy Marshal, 715 Common St., Lake Charles, La., says: "A kick from a horse first weakened my back and affected my kidneys. I became very bad and had to go about on crutches. The doctors told me I had a case of chronic rheumatism, but I could not believe them, and finally began using Doan's Kidney Pills for my kidneys. First the kidney secretions came more freely, then the pain left my back. I went and got another box, and that completed a cure. I have been well for two years."

TO PROBE COAL TRUST

The Government Employs Charles E. Hughes as Special Counsel.

Enough Evidence to Warrant Action—Administration to Retire Recent Defeat in the Beef Trust Case.

Washington, D. C.—The Government has employed as special counsel for the proposed investigation into the interstate transportation and sale of coal Charles E. Hughes, who was chief counsel for the Armstrong Insurance Investigating Committee. Mr. Hughes has agreed to undertake the work. Alexander Simpson, Jr., will be associated with Mr. Hughes. The appointment was made in the following statement of Attorney-General Moody: "Charles E. Hughes, Esq., of the New York Bar, and Alexander Simpson, Jr., of the Pennsylvania Bar, have been retained by the Department of Justice to take under consideration all the facts now known, or which can be ascertained, relating to the transportation and sale of coal in interstate commerce; to advise what, if any, legal proceedings should be begun, and to conduct, under the direction of the Attorney-General, such suits or prosecutions, if any, as may be warranted by the evidence in hand and forthcoming. The general subject for some time has been under consideration by the Department. It is believed that sufficient evidence has been developed in the investigations of the Interstate Commerce Commission and otherwise to warrant the employment of counsel under the provisions of the appropriation act of February 25, 1903, authorizing the employment of special counsel and agents in proceedings of this nature. An important element in arriving at this conclusion is the recent decision of the Supreme Court in Hale vs. Kenkel, holding that the Federal Government has the right, under legal proceedings, to examine the books and records of corporations engaged in interstate commerce. Operators Yield Not.

Flat Rejection of Anthracite Miners' Last Proposition. New York City.—The formal answer of seven of the last proposition of the committee of the anthracite miners workers was sent by the operators to John Mitchell, after a meeting in the Jersey Central Building. It is an unqualified rejection of all the propositions of the miners.

While the letter does not say specifically that the operators' last offer still holds good, it was declared that it holds good until a break comes, as does also the alternative offer to continue the agreement under the award of the arbitrator strike commission for three years longer. Preparations are being made by the operators for strike emergencies and the starting up of the washeries is the entering wedge in breaking the deadlock. The "suspension of work" in the hard coal regions thus becomes a strike, so far as the operators' view of the situation is concerned. They put it "up to" Mitchell's committee to agree to build arbitration to the two questions mentioned, or to have their convention formally declare a strike.

TEN DIE IN ROW OVER EASTER

Greek and Roman Church Adherents Fight About Date. Memphis, Tenn.—Ten Greeks are reported killed in a riot at the little station of Gurley, Ark., forty miles south of Helena, Ark., on the line of the new Memphis, Helena and Louisiana Railroad. Others were injured. The rioting began in a dispute between Roman Catholics and adherents of the Greek Church as to the date on which Easter should be celebrated. Those who believed Sunday the day of days ordered beer and whisky from Helena to live on things. While willing to join in the carousal, the Greek Church adherents insisted that their calendar was correct. Bad feeling soon cropped out, and from individual quarrels the matter broadened into a riot. Sunday afternoon shooting was general and seven men were killed by the time a messenger got away from Helena.

HONORS SON OF FRANKLIN.

Andrew Carnegie Makes Miss Agnes Irwin a Doctor of Laws. Philadelphia.—In the presence of the most brilliant gathering of scientists, philanthropists and men of letters seen since the Centennial of 1876, Andrew Carnegie, as Lord Rector of the University of St. Andrews, conferred upon Miss Agnes Irwin, dean of Radcliffe College, and the granddaughter of Benjamin Franklin, the degree of Doctor of Laws.

It was the closing feature of the opening session of the bi-centennial celebration of the birth of Benjamin Franklin. Miss Irwin is a gray haired woman past middle age. As she stood on the platform just in front of the marble bust of her ancestor, not a few in the audience found a striking resemblance.

Drowned Seeking Reconciliation. When he reached a stream in view of his wife's home he found the bridge washed away, and attempted to swim across, with the fatal result.

CALLS AUTOMOBILIST CRAZY. Insurance Company's Reason For Refusing to Pay a Death Claim. New Orleans, La.—The Ocean Accident Insurance Company has refused to pay a large policy on the death of J. L. Ironcock, who was killed in an automobile accident in Los Angeles, several months ago, on the ground that the company cannot pay a claim on an automobilist, as most of them are monuments on the question of speeding their machines, and, therefore, the company is not responsible.

SAVED BABY LYON'S LIFE.

Awful Night From That Dreadful Complaint, Infantile Eczema—Mother Praises Cuticura Remedies.

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery, in fact, there was nothing we would not have done to have given him relief. We finally procured a full set of the Cuticura Remedies, and in about three or four days he began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered. Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awful sight that I ever beheld prior to the treatment of the Cuticura Remedies. Mrs. Mabelle Lyon, 1820 Appleton Ave., Kansas, July 18, 1905."

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women. Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for this purpose. When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life. For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case."—Mrs. Emma Sawyer, Conyers, Ga.

HIGH CLASS DRUGGISTS AND — OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup"—and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

The Old Brocade. In a black oak chest all carved. We found it laid. Still faintly sweet of lavender. An old brocade. And that perfume came a vision. A garden fair. Inclosed by great yew hedges; A lady there, Culling fresh blown lavender. A-singing goes Up and down the alleys green— A human rose. The sun glints her auburn hair And brightens, too, The silver buckles that adorn Each little shoe. Her kerchief and her elbow sleeves Are cobweb lace; Her gown, it is our old brocade, Worn with a grace. Methinks I hear its soft tinkle. And see the sheen Of its dainty pink mossrose buds. Their leaves soft green. On a ground of palest shell pink. In gardens laid; But long dead the Rose who wore it— The old brocade. —M. S. Brereton, in A Celtic Christmas
