Someone has paid there is a little flower in the corner of every heart called reuence which needs watering is done by the worship service on the Lord's Day. Surely it would be a great thing for the kingdom of God if every individual professing faith in him would water the blossom of reuence the first day of every week. But why restrict it? Daily worship would make it much more luxuriant.

We want the towns business section to be in keeping with our lovely residential section. If you must have places to dump debris, we would suggest you plant evergreens around the spot, or a small fence to screen them from public view.

To those who have not seen our notice or we have failed to contact, will you please remove all dead grass and mend fences our walls. Thank you for your civic pride and cooperation. This is just the beginning. This project will continue throughout the year. Lets' make our town beautiful.

Rockfish Community Works On Building

The Rockfish community has resumed work on its community building. During the last few weeks the remainder of the new windows and one new door have been put in, the roof and outside walls painted, and framing put in place inside for a kitchen and rest rooms. The yard has been cleaned up and leveled with a bulldozer.

Wednesday night of last week, approximately twenty citizens of the community met at the community building to formulate plans for completing the building. It was argued the next step would be to have it completely rewired for electricity. Then the walls should be sealed and the overhead of the main meeting room closed in.

During the last few weeks
