Value Showdown:

Match these features against what competition gives you for the same kind of money, and you'll have a better idea why more people are buying Chevrolets again this year.

Built-in "guard rails"
There's a strong steel beam built into every door of every 1969 Caprice, Impala, Bel Air, Biscayne, Kingswood Estate Wagon, Kingswood, Townsman and Brookwood.

We call it a side guard beam, and it looks like one of those guard rails you see along the freeway.

That's what it's there for: To guard you. To strengthen the door and put a more solid wall between you and the outside world.

Not a glamorous feature. But you'll have to admit worthwhile.

Computer-selected springs
Maybe you'll order your new Chevy equipped to the hilt. Or maybe you'll order it with hardly anything on it.

Either way, you're going to get your full measure of our renowned ride.

Because we go to the trouble of programming each car's equipment load into an electronic computer.

The computer then tells us exactly which springs to use, depending on the car's weight and the way it's distributed.

Chevrolet, the only car in its field with computer-selected springs.

Fenders inside fenders
We could have skipped this. (The other cars in our field do.) But we're as anxious as you

are to keep your beautiful new Chevy looking beautiful and new.

So:

Up inside the regular fenders we've placed a second set.

They do all the in-fighting. Catch all the splashed-up rain, slush and road salt. Stop the kicked-up stones.

While your "outers" just sit there looking pretty.

Astro Ventilation
The other two cars in our field give you air intakes down by the floor.

So do we.

We also give you two up on the instrument panel.

And all four of them are adjustable so you can regulate the flow of air just the way you like it.

Even with all the windows closed, you'll be comfortable inside. You get air without wind. Without noise.

Astro Ventilation is standard, now, on all the big Chevrolets.

The theft-thwarter
On the steering column there's a lock.

Only Chevrolet has it, in Chevrolet's field.

You turn the key and it locks three things:

Your ignition.
Your steering wheel.
Your shift lever.

When you own a car this tempting, you don't dare take chances.

Biggest standard V8 in our field

Ask any car enthusiast, he'll tell you:

Chevrolet builds great engines. Especially V8s.

And this year there are six great V8s available for the big Chevrolet. Standard: Our 235-hp 327-cubic-inch Turbo-Fire.

Another thing: We've lowered the price of several of our bigger V8s along with our automatic transmissions and power disc brakes. Which makes it possible for you to buy a '69 Chevrolet for even less money than you could last year.

Show up for our Showdown. You can't lose.

Putting you first, keeps us first.
