In the dining room the color scheme was pink and white. An arrangement of pink gladioli in a crystal bowl graced the center of the dinner table. These were enhanced by the lighted pink candles placed in crystal candelabras which flanked the centerpiece.

H. High School; Everett Jones of Selma a schoolmate at Campbell College last year who is going into the U. S. Army, and A. J. Cavensugh Jr. and Mrs. Edith Cavensugh of Wallace.

**David Hawn Visits In Peru**

David H. Hawn has recently returned from a month's visit with Louisa Carera in Lima, Peru. Four years ago, Louisa, whose father is a mining engineer in the Capital City of Lima, Peru, was a guest in David's home while he was an exchange student here, and this summer David returned the visit.

While there David was taken to many interesting places by his friend. They made a sight-seeing journey down the Amazon Valley, visited other Peruvian cities and the famous Lake Titicaca. This lake is at the southern border of Peru, is the country's largest and most beautiful body of water and high in the Andes mountains at about 13,000 feet above sea level. The two young men visited universities, including Louisa's school, the University of Lima which has been demolished by rioters and will have to be restored before it can be used again. With Louisa's guidance, they visited the mines, also.

Of great interest in Peru are many ruins of the ancient Inca civilizations in the forms of lost cities and great temples which were centers of culture in various places in the Andes before their destruction by the Spanish Conquerors. David had the opportunity to see some of these ruins from days when the Incas (the word means "Children of the Sun") ruled the country. The greatest of all of these was the city of Machu Picchu, a city so inaccessible that the conquering Spaniards never found it, and which is now being restored.

In all, David had a wonderful trip, gleaned information and saw evidence of a culture much richer and far older than ours and did all the things that a tourist can do and more. His visit in the Carera's home with its many hospitable advantages gave him great insight into the lives of our friends in Peru.

Being a young man, unattached as yet, there were other major advantages for David Hawn. We'd like him to tell more about his reaction to those lovely señoritas!

**Daylight-Saving Kit \$3.75**

In another few weeks, it'll all be over. No more long, lazy twilight evenings that last until eight-thirty or nine. No more getting off "early" because of daylight saving time. Suddenly one night when you get home, it'll be dark. Pool's Summer's gone! What'll you do?

Buy an area light. That's one of OP&L's modern blue-white lights that rents for only \$3.75 a month, complete. It'll brighten up the night again. And, after you go to bed, it'll keep the night bright just in case of trouble.

An area light is a do-it-yourself daylight saving kit for all year 'round. Have one installed, soon. A call to our office is all it takes.
