

BLACK BEAR KILLED NEAR PINHOOK - Herman Craft, pictured here at the trophy, shot the 450-pound bear Dec. 30, 1981 near Pinhook as he was deer hunting. "I heard something rumblin' through the bushes,"

said Craft. "The big bear was sneaking out in a crouched position when I shot him." The bear's claws (or toenails) are three inches long and sharp. Craft lives at Sloan in Duplin County.

THE HOUSE PLANS THAT COULD SAVE YOU UP TO \$250 A YEAR.

The way you build a home can make up to a 40% difference in what you pay for heating and cooling. Yet some people tend to think an energy-efficient home has to be an exotic plan out of the 21st Century.

The fact is, almost any kind of house can be built to what we call "Common Sense" standards. And, even though it does cost a bit more to build, your energy savings of \$20 to \$30 a month make up the difference in a hurry.

What's more, chances are, there are also a lot of ways you can save in the home you're in now. So call us or stop by.

Whatever your housing situation, we're happy to help out. Because the more you get out of your energy dollar, the more we get out of ours. And that's better for both of us.
