

JSTC May Help Train Stevens Mill Workers

James Sprunt Technical College hopes to regain lost funding to start a training program for J.P. Stevens Co. workers, President Carl Price told the Board of Trustees last Thursday night.

Price said the company has asked the school to train workers on new machinery being installed in Stevens' Wallace mills.

The school, along with other state institutions, lost 6 percent of its state funding to statewide budget cuts. Because of the nature of the Stevens request, Price said, he will ask the state Department of Community Colleges for additional funding, which he said he believes the school will get.

James Sprunt's 140-student enrollment increase in the fall quarter, compared with a year ago, was attributed in large part to a computer program which

was begun this fall and attracted 118 students.

Dean of Students Alfred Wells said 853 students enrolled in the school's fall quarter, which ends Dec. 16. That is an increase of 17 percent over the 713 enrolled a year ago. The winter quarter will open Jan. 4 and continue until March 27.

Wells said the effect of depressed economic conditions on enrollment could not be determined. He told the trustees that more students than ever have said they are unable to pay the school's \$39 tuition.

Several federal grants assist 308 students at the school. They include: — Pell Grant (formerly the Basic Educational Opportunities Grant) of \$115,993, which assists 247 students with tuition, books and transportation.

— The college work

study grant of \$30,220, which aids 41 students who work at the college for \$3.35 per hour.

— The specialized educational opportunities grant of \$4,751, which helps 20 students with tuition, books and transportation.

Most of the school's students come from Duplin County. The school also serves some students from nearby counties such as Sampson, Pender and Onslow.

Wells said 545 students are enrolled for full-time study and 303, part-time.

Facts About The **BIBLE** *BY JOHN LEHTI*

THE DISAPPEARING ARMY

DURING THE TIME DAVID AND HIS FOLLOWERS WERE BEING HOUNDED BY SAUL'S ARMY THEY DEVELOPED A STYLE OF SUDDEN RETREAT IN THE WILDERNESS WHERE EVER THEY WERE THREATENED BY SAUL'S SUPERIOR FORCES. THIS IS THE SAME METHOD WE READ ABOUT IN THE MYTHICAL ROBIN HOOD AND HEAR ABOUT IN MODERN DAY GUERRILLA TACTICS IN VIETNAM AND AFGHANISTAN. NO MATTER HOW SET UP THEIR CAMP WAS, IF A SCOUT WARNED OF SAUL'S APPROACH, IN NO TIME AT ALL NOT A TRACE OF THE CAMP REMAINED, NOT EVEN THE SMALLEST OF JUGS WAS LEFT BEHIND. THEY WOULD DISAPPEAR INTO THE WILDERNESS TO LEAVE SAUL PUZZLED AS TO THEIR WHEREABOUTS. THIS MANUEVER IS WHAT GAVE DAVID THE APPELLATION OF "THE DESERT FOX."
