It's hard to imagine an insured money market account more convenient than this.

Unless it's this.

BB&T's new Money Rate Savings Account has just about everything you want in an investment.

To begin with, it pays market rates. But unlike traditional money market funds, it's insured by the Federal Deposit Insurance Cor-

poration for up to \$100,000. To top it all off, it's convenient.

You can withdraw your money anytime, without penalty, at any BB&T office or 24-hour teller machine. Now what could be more convenient than that?

BB&T's new Money Rate Checking Account also pays market rates, is insured and lets you make withdrawals anytime. But with this account, you can also write checks whenever you want.

How do you decide which account is right

for you? Well, a lot of investors keep their checking and savings money separate. So, like them, you might want both. And you can open both with minimum deposits of \$2500 each at any BB&T office. Now what could be more convenient than that?
