CARD OF THANKS

The family of Clifton Stanley would like to thank the many friends and relatives, brothers and sisters of Woodington Ward, the employees of New W.H. Jones for the many kind and thoughtful deeds that they did for us while he was in Utah Valley Hospital. We thank you for the gifts we got, for the people that came to see us the day we left to go to Utah, and for the phone calls. We thank you for the many get-well cards that were sent to Clifton and for the many prayers that were said for him. A special thanks to Ernest Murphy and Jeff Tyndall for coming out to Utah to take

Clifton and I home, even if he couldn't come home when they got there. Also a special thanks to Thomas and Marcia Heath for coming to get us when he did get well enough to come home. Thanks to Tommy and Myra Heath and to Tommy, sisters Karen, Clarissa and Wneddy for helping give the welcome home party that they had for us when we got home. We thank every one that helped in any way by thinking of us or by prayer. May Father in Heaven bless you, each and every one. Love you. Some people think an IRA won't help until retirement. Nonsense. A BB&T IRA helps every April 15.

An IRA, you see, is more than a fast-growing retirement fund. It's a tax shelter. It's a way to take a big deduction each year from your gross income so you wind up paying less income tax. You may invest up to \$2,000 a year in your IRA (\$2,250 if you're married and only one of you is a wage earner, \$4,000 if you both are). And every penny of your investment is deductible. Every penny earns interest, too. At a rate that's tied to money market rates, with a guaranteed minimum of 8%. What's more, we compound that interest daily - not annually or quarterly as some banks do - which can make an enormous difference in interest earned over the years.

| Amount Deposited @ \$2,000/Year | Daily Compounding* | Annual Compounding* | Net Gain With Daily Compounding |
|---------------------------------|--------------------|---------------------|---------------------------------|
| 10 | \$ 32,097 | \$ 31,291 | \$ 806 |
| 20 | \$104,323 | \$ 98,846 | \$ 5,477 |
| 30 | \$266,846 | \$244,692 | \$22,153 |
| 40 | \$632,553 | \$559,562 | \$72,991 |

*Based on 8% interest rate.

And all your interest is tax-deferred. You pay no tax on it until you begin withdrawing funds between 59½ and 70½ years of age, when you'll probably be in a lower income tax bracket. If you start an IRA in your early thirties, a \$2,000-a-year investment can turn into a tidy sum by retirement. And even if you can't start that early, you'll still pile up a sizeable fund. Call or visit any BB&T office and get your IRA started soon. After all, how can you pass up a plan that gives you big bucks in the September of your life and a bigger refund check every April?
