My television has been hooked into the cable television system in Warsaw for several months now. No complaints, so far. In fact, for about a month now I have been receiving an extra benefit. A brand new cable station went on the air about a month or so ago. . . "The Nashville Channel." I am a country music fancier. I just love that country music and Donna does, too. It seems when one TV station or network has "nothing on," so to speak, all the others join in and they too have "nothing on." Some have reruns or noninteresting events. Here is where the Nashville Channel comes in. You can always turn to watch the Grand Old Opery or some other country music show. One on the shows on the new Nashville Channel is "Country Music Yesterday." Old-timers who were on the radio show "WSM," "Opery," or "Barn Dance" are interviewed and their old music is played. These folks and their past remind me of mine.

On a country summer evening after work in the fields was over for the day. Pete and I would sit on the front porch of his parents' home and sing country songs with all the enthusiasm of any Grand Old Opery star. Pete could play the guitar. He taught himself, and as we sang, all our troubles and aches and pains went away. It was almost as refreshing as taking a bath in a washtub at work-day's end - or going skinny-dipping in the creek and washing with a bar of Ivory Soap (It Floats). . Lye soap got the tobacco gum off, but it would not float. The crickets and whippoorwills helped us sing and the mosquitoes came for supper, of course. There was a martin gourd at the left side of the house, and the martins cut down the mosquito population a little. There was no TV then. On week-day nights, when the radio battery was strong enough, we could listen to Radio Station WCKY, Cincinnati, Ohio. . . 1 am going to tell you more about Pete later, and his brother Bud. and his dad Henry. . . But not this week. Space is at a premium. . . But. they are a part of my "roots."
