The new low-cost sucker control team, from Uniroyal.

ROYAL MH-30 SG and ROYALTAC-85

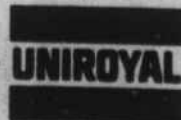

ROYAL MH-30 SG and ROYALTAC-85 offer a two-step, sucker control program that delivers the kind of low-cost, season-long control you can depend on for better flue-cured yields and quality.

- ROYALTAC-85 — contact sucker control, so effective it knocks out existing suckers fast. Offers flexibility for early topping and applications.
- ROYAL MH-30 SG — the systemic advantage. Long-lasting sucker control. Now available in a soluble granular formulation...dissolves fast, without mess.
- For improved yields, quality and returns, ask your ag chemicals supplier about ROYAL MH-30 SG and ROYALTAC-85 —the affordable "clean-stalk" duo.

Uniroyal Chemical, Division of Uniroyal, Inc., Naugatuck, CT 06770

Bettering your bottom line.

Wesley Boykin Receives PhD

On May 22, Wesley Leopold Boykin will receive the Doctor of Philosophy (Ph.D) degree from the University of Wisconsin at the Milwaukee Arena in Wisconsin. A native of Route 2, Warsaw, Wesley is the son of the late Maude and Willie Boykin.

Wesley Leopold Boykin

Dr. Boykin is the youngest student ever to receive the Ph.D in the urban educational doctoral program at the University. His major department was educational psychology and his minor departments were urban affairs and social welfare, where his area of concentration was research methodology, evaluation and statistical analysis. His dissertation, entitled "Student Retention and Attrition at an Urban University," is dedicated to his mother, Mrs. Maude Odessa Hickman Boykin, who only saw the first three (unrevised) chapters of this book.

Wesley is a 1975 honor graduate of James Kenan High School in Warsaw. He graduated Magna Cum Laude (with high honor) from North Carolina A & T State University in December 1978 and received the master of science degree in educational psychology (human learning and development) in May 1980. His list of collegiate

honors and awards are numerous. Some of these are the National Deal's list, Who's Who Among Students in American Universities, and Outstanding Young Men of America-1982. Wesley has been the recipient of several scholarships and fellowships throughout his college career.

Among other organizations, Dr. Boykin is a member of the following professional and honor societies: Kappa Alpha Psi Fraternity, Inc., Alphi Chi National Honor Society, Alpha Kappa Mu Honor Society, American Educational Research Association, American Public

Health Association, Association for the Study of Higher Education, Phi Delta Kappa, Sigma Tau Delta Honor Society, and Alpha Phi Omega-National Service Fraternity.

Dr. Boykin contends that his success is greatly due to the sound education he received in the Duplin County public schools, particularly his excellent start at the former Douglass High School. He mentions the following as most influential in his education: Sudie Henry, Harriet Moore Steed, Harriet B. Austin, Suedell Hill, Esther Suggs Durham, Honoree Butler, Mrs. Brown (his 12th grade English teacher), Bessie L. Beatty,

Cornelia Best, Pearl Maye, Betty Abbott and most of all, Nathaniel Boney (his mentor).

Dr. Boykin has accepted a post-doctoral appointment in the department of epidemiology in the school of public health at the University of North Carolina in Chapel Hill, which will begin in August 1983.

His sister, Jeanette of Warsaw, and his brother and sister-in-law, Lenon and Patricia of New York City will attend the commencement exercises in Milwaukee.

Wesley is the nephew of David and Viola (Boykin) Moore of Route 1, Kenansville.
