THE DUPLIN TIMES/ DUPLIN TODAY/ THE PINK HILL REVIEW

presents

A New Look To Your Newspaper A new 6-column showcase is coming Thursday, February 2, 1984

Over the past several years, the newspaper industry in the United States has been working on a plan that would standardize the size of all newspapers published in this country. So far over 90% of the daily and many non-daily newspapers have voluntarily agreed to change to the new standard by July 1, 1984.

The Duplin Times/Duplin Today/The Pink Hill Review in joining with this group will make its change to this new six column format on Thursday, February 2, 1984. The change will result in a cleaner, easier-to-read newspaper and should

enhance the advertising columns of The Duplin Times/ Duplin Today/The Pink Hill Review.

Advertising space rates will remain virtually the same, but will be adjusted to accommodate the new wider columns. In most instances the new format will result in slightly lower cost for most ads. This brochure is for you to familiarize yourself with this important and exciting change to your newspaper.

The change is really not very difficult to understand if you keep in mind that the present 8 column x 21 1/2 inch page will become a 6

column x 21 1/2 inch page. The present 172 column inch page will become a 129 column inch page or 75% as many column inches. You may see the comparison of other popular size ads on page four of this brochure.

Our advertising sales representatives and staff will be happy to talk with you and answer any questions you might have regarding this change. We, at The Duplin Times/Duplin Today/The Pink Hill Review, are excited about this new look of your newspaper and hope you will join in our enthusiasm on February 2nd.

A LOOK AT THE OLD AND THE NEW!

OLD 8 COLUMN

This column is an example of the old look. It represents the narrow newspaper columns of the past which are giving way to the wider, easier to read look of the six column format.

Experts have long contended that numerous eye movements from line to line make reading tiresome and difficult. And, they say, the frequent hyphenations which are necessary in a narrow column make comprehension poor.

The Duplin Times/Duplin Today/The Pink Hill Review will be changing from this old format on February 2, 1984 to the new 6-column format.

NEW 6 COLUMN

This column is an example of the new look! It represents the wider and easier to read appearance of the six-column format, which will soon be replacing the narrower newspaper columns of the past.

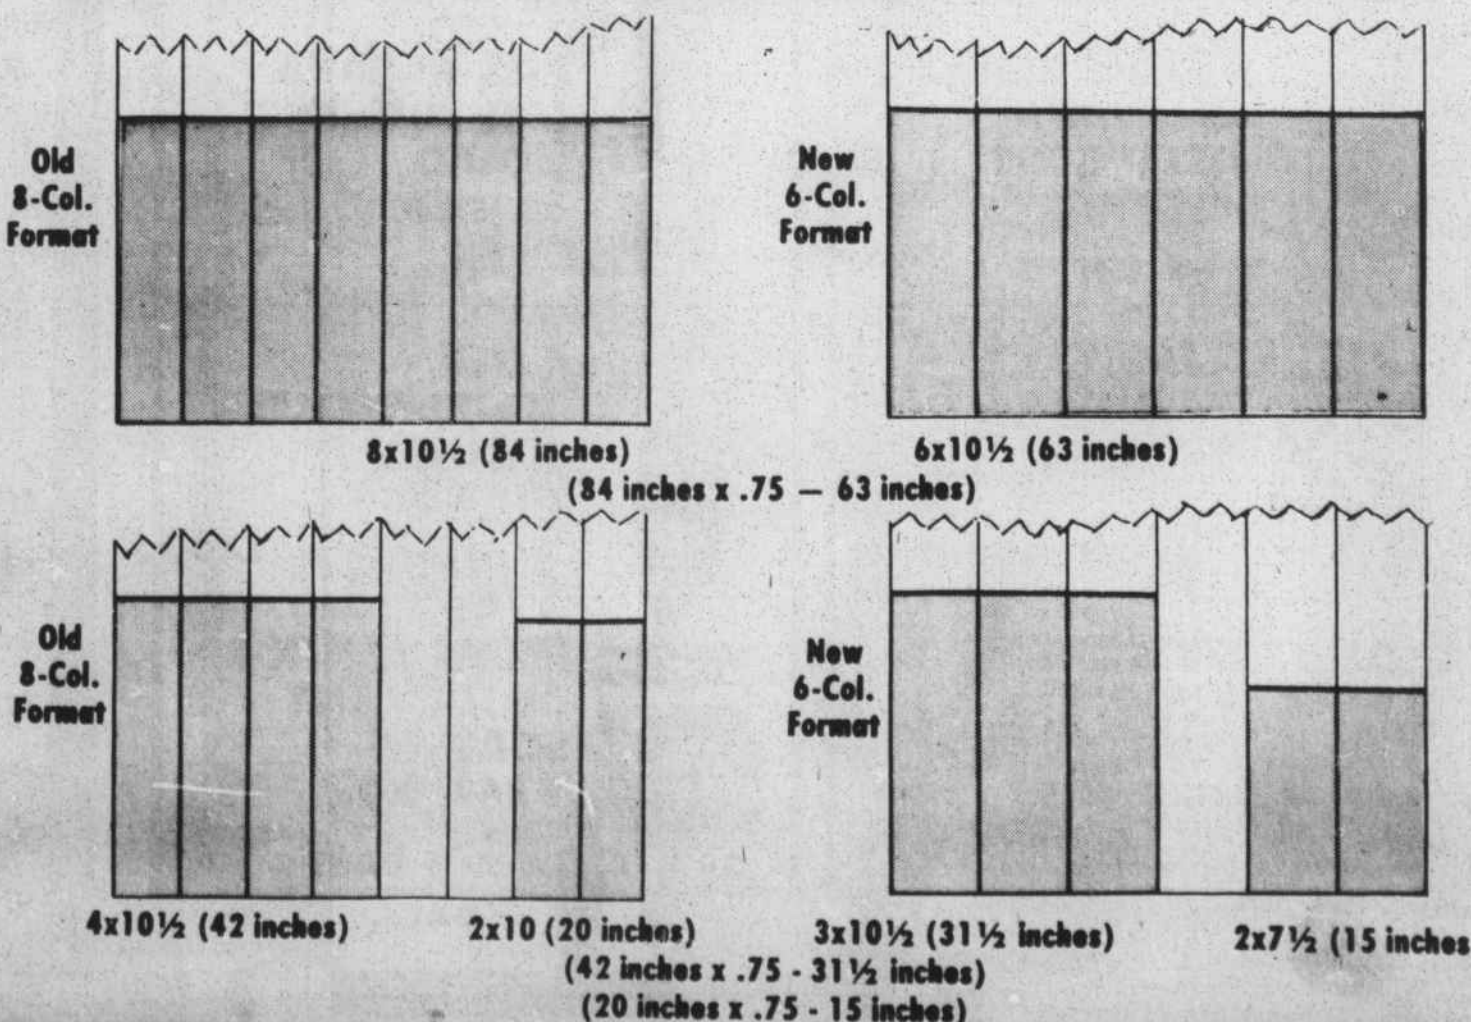

Experts have long contended that numerous eye movements from line to line make reading tiresome and difficult. And, they say, the frequent hyphenations which are necessary in a narrow column make comprehension poor.

The Duplin Times/Duplin Today/The Pink Hill Review will be changing to this new format on February 2, 1984 to the new 6-column format.

WIDER COLUMNS WILL MEAN EASIER READING, GREATER COMPREHENSION AND AN IMPROVED SHOWCASE FOR YOUR ADVERTISING.

Here are some popular ad sizes shown in both the old 8-column and the new 6-column formats.

Ad sizes on the left are the same percentage of a page as the ad sizes on the right.
