Hardison Files Re-election To Senate

The filing time has come again for election of representatives to the General Assembly of North Carolina, especially for Senator from the Fifth Senatorial District. now composed of a part of Pender County in addition to all of Duplin, Jones and Lenoir counties. Having served one term in the North arolina House of Representatives (to which I was elected in 1970), I am now completing my sixth term in the State Senate.

Therefore, it has been my privilege to serve the people of our District during all of that period of time, and I have always tried to honor that privilege by working diligently at all times to represent and benefit all of epresent and benefit all of the people of our district and of our State. For some years now, I have been further honored with appointments to several important Senatorial Committees and Legislative Commissions. Many of these meet throughout the year when the Legislature is not in session. For example, I have been and am now hairman of the Senate Appropriations Committee and also a member of the State Advisory Budget Commission. However, every year the time necessary to fulfill these duries continues to increase as our society, economy and way of life all become more complex, not to mention the continued increase in our population.

Nevertheless, my service on all these committees, commissions and boards helps me to better serve the people of our district. Accordingly, experienced, effective and diligent representation of our people becomes more important each year. It is my sincere belief that I can continue to effectively fulfill these duties. I have been asked to seek higher office, but after careful consideration and consulting with many of my friends in this area, it is my honest opinion that I can better serve the people of this district by remaining the Senator from the Fifth Senatorial District.

Therefore, I wish to announce that again I will be a Democratic candidate in the 1984 elections for Senator from that district and again pledge to continue to give my very best to that office. I will

be proud to serve again as Senator, and again I respectfully and sincerely seek the active support and the votes of all the people in our district, and again I thank them for all the support and confidence they have always
