FOR THE

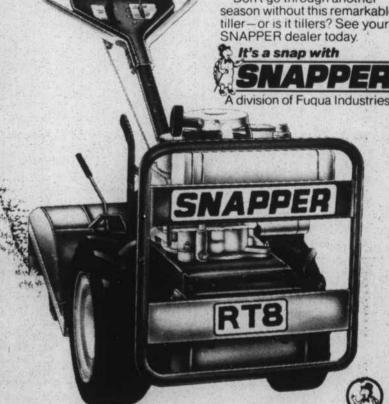

Experienced gardeners know that breaking up hard new ground requires a different tiller than the one used for normal in-the-garden tilling. No more. SNAPPER's revolutionary rear tine tiller is both machines in one. This versatile workhorse changes easily from reverse tine rotation to forward so the tines dig deep against the pull of the wheels in the hard stuff

or turn with the wheels for regular tilling. Grab a bull by the horns. That's what tilling was like until now. SNAPPER puts you in

total control. The controls are on a handle bar that actually swings to either side of the machine so you don't have to walk in your work. More than two tillers, SNAP-

PER's rear tine converts to a walking tractor with optional attachments. Plow, cultivate, doze snow. There's no end. Don't go through another

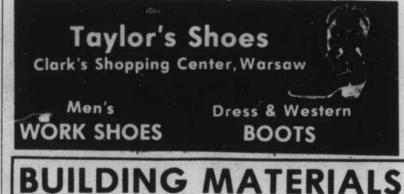

season without this remarkable tiller-or is it tillers? See your SNAPPER dealer today.
