VOL XXI NO. 33.

FRIDAY DECEMBER 24, 1915.

Here's hoping you all have a very merry Christmas.

We ask old Santa Claus to be liberal with every child in Polk County.

"Sunny Jim" up at Saluda, wants to know what has become of the old fashioned prophet who said German would be whipped in six months.

Wonder what the Master would say if he were on earth today, of this horrible war? And they are called Christian nations, with one exception.

In last weeks issue of The Literary Digest there is an article on Winter Travel and Resorts. Under the heading, "Winter in Dixie", the following appears:
"A few miles below Asheville is Tryon, the southern gateway to the "Sapphire Country," by which name also this delightful country is known. Tryon too has excellent hotels and a salubrious climate."

GRAB THE DOLLAR

I had the task of setting up a mechanical toy, self propelled, called an "Irish Mail". It is made in Ohio and comes knocked down. Everything went well until the wheels were to go on and it was found that the holes punched in the axle were left with a heavy bur requiring a file to dress the bur before the wheels could be put on. Two bolts were unfastened and a frame support fell off. The toy is well made and ingenious in its operation but the hap-hazard way it is sent out is a "knocker" and is characteristic of the American method of doing things. I set up a mechanical toy made by a foreign maker a few years ago and marveled at the simplicity and the foresight of the manufacturer. Everything was there and the proper tools, in the box. It was a pleasure to set it up. Before the Ohio toy could be assembled it was necessary to get tools and finish the work left undone at the factory.

It seems that our only aim is to "grab the dollar," rather than how well can the thing be done.

"Breaking up a Cold"

This is the open season for colds. Nearly half the people you meet have already had at least one cold this fall and winter. Others will soon follow suit. But what can the unfortunate victim do about it? That is the question.

There is no royal road to recovery, but here are some "first aid" suggestions that will usually help a lot. First of all, don't let your cold "get the jump on you." "Nip it in the bud" by beginning heroic treatment at once. At the very first indication of headache, feverishness, sniffles or running nose, especially if you have been indiscrete or laid yourself to a cold, secure free and easy bowel movement. If constipation or over eating has been a probable factor in bringing on the cold, a warm enema, followed immediately by a cold enema, will usually help, particularly if supplemented by a laxative of some kind. Next, take a good, hot foot bath. Soak the feet and legs nearly up to the knees in water as hot as can be borne for twenty to thirty minutes. Do this in a warm room. In the meantime, keep well wrapped in warm blankets. Two or three glasses of hot lemonade should also be drunk, and the patient placed in a warm bed in an airy room for at least a day, but in no way exposed to drafts. One or two meals should be skipped and the diet made to consist largely of fruits and vegetables. Avoid whiskey, heavy doses of quinine and patent

medicines. They usually contain coal tar products, and the body has trouble enough at such a time without adding these.

Finally, while taking the cold treatment is one of the best times to make de-seated resolutions to avoid such things in the future by proper living.—State Board of Health.
