But I saw a card in a box which said Box to Rent. So I told Uncle Billy about it. But he took it out and looked at it said it didn't say that, but I knew better. So I didn't speak to him for four days, and he didn't speak to me for four days." The feud was after amicably settled.

While a traveling salesman the editor made Greenwood frequently, and on his first visit was favorably impressed with the place. A fine and well-kept hotel, good streets, good business buildings, it never fails to favorably impress any one. The example set by Mr. Hammett, Mr. Jack Boatwright, who is in the superintendent of the Tryon Hosiery Co., and as told by our Lynn correspondent could well be followed by many others. There are many people in this vicinity running automobiles that can not really afford to, and should dispose of them and invest their money in Liberty Bonds and War Savings Stamps as Mr. Hammett proposes to. Tuberculosis Kills as Many as Fall From Bullets.

Dr. Livingstone Farrand Appeals to People to Enter Battle Against Disease.

New York .- Mortality from tuberculosis among the civilian population and in the armies of all the countries engaged in the war has at least approximated the total number of soldiers killed in battle, according to Dr. Livingstone Farrand, director of the American commission for the prevention of tuberculosis in France.

That the people of America throw themselves into the winning of the war against tuberculosis with the same zeal with which they have hurled themselves against the Hun is the burden of an appeal made by Doctor Farrand on the eve of his return to France.

"To make our country really safe we must first make it healthy," is the slogan Doctor Farrand suggests for this war against disease.

Of the men called to the colors by the first draft 50,000 were found to be tubercular. This is one of the striking indications of the prevalence of the

Increased food, clothing and housing costs necessitating, among the lower wage groups, diminished quantity and quality and their resultant undernutrition, are given as contributing causes.
