

**THE MOUNTAIN INDUSTRIES**

**Four Scholarships to be Given to Those Desiring to Learn Wood Carving, Toy Making and Weaving. Four Looms to be Purchased for That Purpose.**

The Mountain Industries, of Tryon, N. C., was formed May 11, 1911, for the purpose of fostering and improving the industries native to the mountain people in this vicinity, as well as to furnish a market for their products.

Through your support these objects have been so far attained that there seemed one year ago no real necessity for continuing to assist them. At this time Mrs. W. B. Stone, of Tryon, offered to purchase the stock and to continue the business as a commercial enterprise. Her proposition was accepted, the directors, however, taking every precaution to safeguard the objects for which the society was organized.

A tentative sale of the stock was made to Mrs. Stone, with the provision that if at any time of the year either party should be dissatisfied the business should be returned to the association, the latter agreeing to take any stock which could be classed as belonging to the mountain industries, at cost price; Mrs. Stone agreeing to conduct the business on lines already established and not to change the name of the society. This arrangement having been found satisfactory after a year's trial, the directors at a recent meeting, voted to continue it for the coming year.

A resolution was passed recommending to the association that from the funds now in the treasury, which amount to nearly seventeen hundred dollars, four scholarships of sixty dollars each, be given to young men and women wishing to learn wood carving, toy making and weaving, and that four looms be purchased for the use of pupils. These looms are to be under the care of the instructors, to be loaned by them to those in need of same.

Mrs. Eleanor Vance and Miss Charlotte Yale, to whom is due the success of the famous Biltmore Industries, are now teaching wood carving, toy making and weaving in Tryon. These scholarships are to be in charge of these ladies, they to have control of same, under the association, thus enabling them to extend the work in which they are engaged, particularly the art of weaving, which has been for nearly three centuries an important part of the life of the people of the mountains, but which, on account of the indifference of the younger women, is in danger of dying out. With the modern and much smaller looms and the more modern designs, much interest has been awakened in the new, while the old will not be allowed to be forgotten.

At the meeting of April 3, above

referred to, it was voted to hold the annual meeting on May 7. As a contributing member of the association, you have a voice in the disposal of its funds. Will you be present at the meeting? If not, will you signify your approval of the reverse of the recommendations contained in the resolution? Will you also state whether in case the sale of the assets should become permanent you will approve of an increased number of these similar scholarships?

**"Take It Easy."**

A great many young folks make hard work of things that should be perfectly easy, and as long as there are plenty of really hard duties to be done, it seems a pity to make hard work of the rest. One of the arts of life is to learn to do our work in the easiest way, saving on the simple tasks strength to apply to the hard duties.

**HOW CAN YOU TELL YOUR FAVORITE TOBACCO?**

**As Plain as the Nose on Your Face—Just Smell It**

Smokers do not have to put tobacco in their pipes to find out if they like it. They can just rub the tobacco between the palms of their hands and smell it. The nose is an infallible guide to smoking enjoyment.

All smoking tobaccos employ some flavoring "to improve the flavour and burning qualities of the leaves", to quote the Encyclopædia Britannica. Naturally, there is considerable difference in the kind of flavorings used, and the nose quickly detects this difference. TUXEDO Tobacco uses the purest, most wholesome, and delicious of all flavorings—chocolate. And the almost universal liking for chocolate in a great measure explains the widespread popularity of TUXEDO Tobacco.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

**WORRIES OVER NO "KICKS"**

**Business Seems to Be Slack With St. Louis Complaint Board.**

The city of St. Louis is expending \$3,000 a year to maintain a complaint board, whose business is to take care of all complaints St. Louisans wish to make. But the board has begun to worry. There have been no complaints, nobody even kicking about the amount of money spent to keep the board.

The complaint board has issued a system of complaint postcard books with blank forms on which kicks will be made, and these have been distributed throughout the city in an effort to stimulate the kickers. All civic organizations who formerly did so much kicking will receive these postcard books, and the complaint board is hoping that the public gets busy and comes along with some kicks.

**The "Fortune" of War.**

An Emporia, Kan., soldier, just returned home, is in a sad plight. When he went away to the war he sent his civilian clothing to the girl to whom he was engaged to be married. Since that time the girl married a civilian, and the latter is wearing the soldier's civilian clothing.

**Church Organist at 15.**

Miss Viola Lungelher, aged fifteen years, is said to be one of the youngest church organists in the country. She was recently appointed to the position at the Church of the Sacred Heart at Brockton, Mass. Miss Lungelher is a junior at the high school.

**First New England White Child.**

November 20 is the anniversary of the birth of Peregrine White, the first English child born in New England. He was born aboard the Mayflower in Plymouth harbor. After his father's death his mother married Gov. Edward Winslow, the first marriage in New England.

**REAL ESTATE, LOANS AND INSURANCE**

City and Farm Property Bought and Sold. Furnished and unfurnished houses for rent. Property taken care of and rents collected. Do not waste your time and tire yourself out looking for a place. Our auto is at your service free. Notary Public.

**JAMES LEONARD, Tryon, N. C.**

**A New Machine At The BANK OF LANDRUM. LANDRUM, S. C.**

This machine is really a wonderful set of steel brains which we are putting to work in our accounting department.

With it we can handle our figure work faster than ever before and at the same time be sure that every item in our books is RIGHT.

**Help Us Give You Better Service**

By the machine method, every depositor's account is kept in balance all the time and there are no mistakes such as are unavoidable with other ways of handling figures.

The time saving made possible by the machine gives us an opportunity to improve the service to our customers in all departments of the bank.

**Everything Is Done Automatically**

It prints dates, adds your deposits to the old balance, subtracts checks, figures and prints your new balance. All of this is done automatically. The operator simply writes the amounts on the keyboard—the machine shifts from column to column and adds, subtracts or prints the dates as desired, without the least attention being necessary.

**Come in and See it Work.**

There is no method of posting ledgers known which equals this Burroughs Bookkeeping Machine in either accuracy or time saving.

Come in and see our new Burroughs at work in our accounting department.
