**Weekly News Letter From Peoples Bank & Trust Co.**

Until recent years bank advertising was confined to a "Professional Card" in the newspapers, a calendar once a year or some little "what-not" to be given away with the inscription "Compliments of etc." It has been demonstrated that in the case of banks as well as other lines that advertising paid. We know of one bank that pays its publicity man \$10,000.00 per year. Banks have a way of knowing whether or not it pays.

Banks like ours cannot afford to pay an ad writer a salary so some of us do the best we can and find that it pays. It is not brag that prompts a bank to advertise. It has something to sell and the more that something is told about the more will be sold—service is what a bank has to sell, not merely the lending of money. Before a bank can lend money it must have the money—reasonable conclusion. This bank wants more money and we know that as we extend our service that the money will be forthcoming. We had this in mind when we installed the best known method of rendering a customer a statement of his account when he wanted it whether it is the first of the month or not. This bank is the first bank in this section that operated the Burroughs machine for posting customers accounts and having the statement

ready each day. This bank issues certificates of deposits any time which draw 4 per cent interest from date, payable quarterly. This is a very satisfactory way to invest inactive funds.

A safety deposit box in our strong concrete vault, may be had for \$2.00 per year. Rent one and protect your valuables against fire of burglars. We issue certificates of deposit for Liberty Bonds for face value and will remit interest without cost, as it becomes due. Do not leave your Liberty Bonds in an insecure place. Better talk with us about your Bonds. Registered bonds not accepted for deposit but may be left with us for safekeeping without charge.

A customer of ours told us that he always felt proud in presenting one of our checks out-of-town for many times comment will be made "What a pretty check."

The past week has been a busy one in this bank, many new accounts, some from most every township in the county. Green's Creek and Coopers Gap are coming to the front. Let 'em come. We can take care of several hundred more without increasing the plant. Two South Carolina accounts slipped in also last week. They appreciate up-to-date service and proper treatment.

To you good men in the Mill Spring section, who are still doing banking

business outside of Polk county: A word with you all. We want your business. Come right in this bank the next time you are in Tryon and tell us why we are not getting your business. You know we will have it "eventually"—why not now?

Green's Creek: We are mixed up geographically, politically and socially—our interests are the same. Why can't we have your banking business? We fancy we hear you say it is so much handier to go to (name deleted.) That's true but most of you send your deposits by mail to the bank you now do business with. Fact, isn't it? All right we would get the letter if directed to us just as quickly and you would get the receipt just as soon and say, what a satisfaction to do business in your own county with your own folks. Try it—if we fall down you will not hear another word. Thanks.

A number of you fellows over in Cooper Gap tote money around with you. It's dangerous to tote money—fire and theft, destroys thousands upon thousands of dollars every year—you may be next. Quit totting money, deposit it in this strong bank and draw it as you need it. We will send you currency through the mail as you need it and assure you of safe delivery. Fair enough? Well then, come on in or write.
