"Long May It Wave."

Give, and give liberally to the Salvation Army.

Some of the German peace delegates have taken their doll rags and returned to Berlin.

Germany begins to realize that she has been whipped, diplomatically as well as defeated in war.

If the Republicans want to remain solid with the ladies they will at once repeal the extra tax on face powder.

The Republicans can make a host of friends in this section, by having the extra tax on coca cola repealed.

Well there is one good thing about the extra session of Congress. Claude Kitchin ceases to be party leader for the democrats.

The fact that nobody seems to be entirely satisfied with the peace terms is pretty good indication that the conference is on the right track.

If the American troops were given orders to begin a march on Berlin we wager the peace terms offered the Huns would be signed on short notice.

President Wilson again shows his wisdom by staying away from Washington as long as possible while the present extra session of Congress is there.

"Pink Whiskers" Ham Lewis and Jim Vardaman will not be seen at this session of congress, but Jim Reed and Billy Mason are there to furnish amusement.

The county commissioners and the county board of education of the county must elect a county superintendent of public welfare before July 15. The county superintendent it to be chief probation officer of the county and the chief attendance officer.

Republican leaders are beginning to realize that the entire world is war weary, and that while there may be serious defects in the League of Nations, as perfected at Paris, it is a move in the right direction, and will doubtless lead of better things later on. It is at least worth a trial.

Any reader of this paper can get a free copy of the Bulletin of the State Board of Charities and Public Welfare, Raleigh, N. C., by asking for it on a postal. This issue contains a copy of the state-wide juvenile court law and the county boards of welfare and county superintendent of public welfare law.

America was the first nation to make use of the telegraph, telephone, electric lights, submarines, steam for motive power, and many other useful inventions. It remained for Americans to be the first to fly across the Atlantic ocean. The performance of the naval sea planes last week is the cause of much pride to all genuine Americans.

The clerk of court of this county is now the judge of the juvenile court for the county and has exclusive jurisdiction over all cases of delinquent, neglected or dependent children under sixteen years of age. The juvenile court is not a criminal court, but a corrective and disciplinary and protective agency for children who are in need of such care.

It is related that the Kaiser sent a special envoy to see Teddy Roosevelt away back in 1914. This envoy remarked to Mr. Roosevelt, "My Imperial Master desires me to ascertain if you remember your visit to Berlin, and the reception given you by him." "I do," said Mr. Roosevelt. "I also remember the reception given me on the same trip, by the King and Queen of Belgium." "Nuf sed."

The State Board of Charities and Public Welfare are required to appoint three persons in each county who shall serve without pay and act as a county board of charities and public welfare. It is probable that two men and one woman will be appointed in each county. The county board meets with the county superin-

tendent of public welfare and advises with him as to his work of general welfare in the county.

The people of this State have determined that every boy and girl born within our borders shall have a fair chance in life to become a useful man or woman. To this end they have prepared a six months school term, with compulsory attendance, a juvenile court with a probation officer in every county, and a county board of charities and public welfare to look after social conditions and find remedies for social evil.

After July first of this year, when the law goes into effect, every child between eight and fourteen years of age must attend school for the full term of the public school, which is to be six months hereafter. If a child is unable to attend on account of poverty he may be helped from the public funds. It will be the business of the school authorities and the chief attendance officer of the county to see that the law is complied with.

If those members of congress would give the gentlemen who are endeavoring to bring peace to the world something better than the League of Nations idea they doubtless would take the matter under very careful consideration. Mr. Wilson has already made several changes from his original idea, and doubtless will have to make several more before he or any member of the peace conference is ready to place the plans before the public. But the people of the civilized powers believe they are on the right track, and wish them God-speed in their work.

**NEW LAW FIRM.**

Smith, Shipman and Arledge is the title of a new law firm in Hendersonville. The firm will have offices on main street in a building occupied by a somewhat well-known firm here during the past many years—Smith and Shipman.

In other words, then A. Y. Arledge, of Columbus, Polk county, is now a member of the old firm of Smith and Shipman. Mr Arledge already has a reputation as a lawyer which time will but add to. He has recently returned from overseas where he gave a good account of himself. He is the son of the Superior Court Clerk of Polk county and is by no means a stranger in Hendersonville. The new partnership is now effective—Hendersonville Hustler.

**Philippine Horses.**

The horses in the Philippine Islands are ponies containing a mixture of the blood of ponies and small horses from northern Coma, French Indo-China and Mexico, with a considerable admixture of Arab blood. There are about 215,000 horses in the islands.
