

**FOOD IS CURE FOR BOLSHEVISM**

First Aid Treatment Splendid Medicine for Spirit of Unrest. How War Savings Stamps Help.

President Wilson has asked for food to stop the wave of Bolshevism rolling westward out of Russia. No intelligent person doubts the value of food as a first aid, but at bottom the security of our institutions rests upon the working interest the people take in those institutions.

Citizens having no interest in a government, no economic interest in the success of that government, are apt to be the first victims of vicious propaganda or unbalanced political theorists. On the other hand men and women who have invested in their government either by way of conducting private enterprise under its protection or through direct purchase of government securities have something at stake and desire to maintain stable institutions. Such persons are not necessarily reactionists. They may be quite progressive and anxious for reform where reform is needed.

Consequently the effective barrier to Bolshevism in America today is thrift and investment. The philosophy must reach into the workshops of the nation. It is reaching into those workshops and into the schoolhouses of the nation in the form of the Thrift Stamp and the War Savings Stamp.

When everybody in America is buying Thrift and War Savings Stamps as a habit one won't hear much about Bolshevism in America. It is the financial and patriotic duty of every American who loves real liberty to get the Thrift Stamp habit NOW.

**HOLD WAR SECURITIES.**

Eastern Business Men Issue Warning Against Parting With Government Bonds and W. S. S.

That it is a bad business proposition for any merchant to encourage holders of War Savings Stamps to exchange them for merchandise is the opinion of a group of eastern business men, who recently discussed this question at their annual convention.

"Such action merely helps fake promoters and dishonest brokers in their effort to shake public confidence in government bonds as an investment," said one of the speakers. "It is lamentable that they have worked to an alarming degree among the poor, and among ignorant people of this country."

The two hundred delegates attending the gathering were so impressed with the necessity for keeping War Savings Stamps in the hands of the original purchasers that each pledged to go back home and constitute himself the head of a vigilance committee to oppose the offering of merchandise for government securities.

**TO ENCOURAGE THRIFT**

Schools Called Upon by Treasury Department to Make Saving Happy Habit.

Through the government savings directors of the twelve federal reserve districts, the Savings Division of the United States Treasury Department has called upon the normal schools, colleges and universities of the country to aid in the government campaign to make thrift a happy habit. The American Council on Education, representing institutions of higher learning throughout the country, has joined with the Savings Division to secure the co-operation of the schools.

The plan evolved by the Savings Division and the Council on Education contemplates the creation of thrift organizations in each of the normal schools, colleges and universities, to teach the basic principles of intelligent saving—wise buying, sane spending, safe investment and avoidance of waste, and to aid in featuring the advantage of Thrift Stamps and War Savings Stamps as the ideal investment for small savings. Through the American Council on Education, the presidents of the institutions of higher learning have been urged to name institutional thrift representatives, who will co-operate with the local savings organizations. This has been done in most cases. The educational institutions are expected to have a large influence in the movement to make the United States a nation of intelligent savers.

**WORLD'S HISTORY IN RESUME PROVES W. S. S. WILL PAY.**

One thing we know as we pursue the history of antiquity, from times when Noah was the news, of Babylon's iniquity, down through the days when Caesar's ghost was haunting Brutus in his bed, is this. The spenders shouted most, but nearly all of them were bled. Whereas the lad who never flung sesterces to the Forum crowd was never immaturely hung nor measured for an early shroud. This bit of ancient sophistry has now its modern counterpart, and more and more it's borne on me how splendid is the saving art—the art of minding one's affairs and watching little things increase. It rids the future of its cares, shows profit on our elbow grease. Today when W. S. S. you read upon a hanging sign, you know the man sell Thriftiness, a virtue once quite hard to find. I do not thank the war for much, but this I've learned, and learned it proper, when someone tries to make a "touch" a Thrift Stamp makes an A-1 stopper.

Watch your nickels and the dollars will take care of themselves.

Small leaks sink big ships—stop them with W. S. S.

**TABLE SHOWS HOW MONEY MULTIPLIES**

Trifle More Than One Hundred Dollars Monthly for Eight Months Will Grow Into Thousand Dollars by January 1, 1924.

The following table will be of service to the individual who plans to save systematically throughout the year by means of War Savings Stamps. The stamps draw four per cent interest compounded quarterly. Each 1919 War Savings Stamp was worth last January \$4.12. Each stamp, because of the interest that is compounded, costs one cent more each month, so that next January it will cost \$4.24 and at the end of five years it will be worth \$5.

Thrift Stamps are of the denomination of 25 cents and are the means by which one may accumulate small savings until a sufficient amount is saved to purchase a War Savings Stamp. They are invaluable for the thrifty saver who can lay aside only a small amount at a time.

why **MICHELIN** tires can be priced so moderately

Michelin users, familiar with the unsurpassed quality of Michelin Tires, often ask "How is it possible to sell Michelin Tires at prices no higher than ordinary makes."

The answer is to be found in Michelin's unequalled experience and in Michelin's watchword "Economical Efficiency."

Moreover, the House of Michelin, unlike many other big enterprises, has not permitted economy to be sacrificed to rapid growth or to the desire for ostentatious display. Every expenditure that will result in greater efficiency is cheerfully made, but any expense that cannot pass this test is scrupulously avoided. Consequently you will not find mahogany furniture or expensive decorations in Michelin offices. Nor will you find Michelin branches located in big expensive buildings where smaller, simpler quarters answer just as well.

Hence it is that Michelin Tires and Tubes can be sold at prices no higher than ordinary makes, though they are recognized as the world's quality tires.
