BANKS ORDERING HAND GRENADES

Over 175,000 Children in Fifth District Will Be Routing Enemy, Waste, During Summer Months.

Richmond, Va.—According to the latest available figures over five hundred banks in the Fifth Federal Reserve District have ordered supplies of hand grenade penny-savings banks that are to be used by the children for summer savings. The total number of hand grenades that have been ordered exceeds 175,000.

The plan of the hand grenade bank originated in the Treasury Department, and the banks are being distributed in this district by the War Loan Organization here. Every school child under the age of seventeen years may, by applying at the local bank, receive one of these hand grenade penny-banks as a loan for the vacation period. If, during the summer, enough money is saved to purchase one or more War Savings Stamps the bank becomes the property of the child.

The banks are made out of real hand grenades that were to have been used against the Huns. With percussion cap and high explosive removed, and slots cut to receive and take out coins, they are now doing service against the enemy, waste, as banks for savings.

School officials all over the district are enthusiastic about the plan, as they feel that it will not only keep alive but strengthen the thrift ideals that already have been implanted in the minds of the children.

J. H. Blanford, assistant superintendent of public schools here, has endorsed the scheme, in a recent letter expressing the hope that all the banks in the district would co-operate by getting supplies of the hand grenades, as the school children are enthusiastic about securing them.

OBJECT IS TO MAKE PEOPLE PROSPEROUS

Government Much Interested in Series of War Savings Societies That Are Rapidly Being Organized.

Government officials at Washington are watching with no little interest the growth of a series of societies springing up all over the United States. They have already attained a membership that reaches well up into the millions.

Treasury department officials are particularly interested in this movement, and it is fostered by that department. As soon as a society is formed the names of the president, secretary and each individual member are placed in the treasury department archives.

These societies are War Savings Societies, and the motive of each society is Thrift. The government, in favoring these organizations, has not only in view the replenishing of the United States treasury through the sale of Thrift and War Savings Stamps, but the big idea is to cause each individual member to learn the value to himself of being thrifty.

The government is not seeking to divert capital from legitimate commercial enterprises. It does not want to tie up vast sums. It is the person who has never saved systematically that it is the most anxious to reach. This person can put aside the small amounts that he has been accustomed to spend, and this, drawing four per cent compound interest, will in an incredibly short time grow into a large enough sum to make the first payment on a home, or to provide a sum with which one may make a permanent investment.

"Nothing is final!" said Napoleon after the battle of Jena. In days of prosperity insure against emergencies. Buy financial safety with War Savings Stamps.

AGENTS CARRYING MESSAGE OF THRIFT

Harold Braddock, Director of Savings Division Writes Letter of Appreciation to Each of Eighteen Hundred Workers.

First-hand information and suggestions as to how to obtain increased efficiency and prosperity may now be obtained by women on the farm, in any part of the country, from the home demonstration agents of the department of agriculture. Entering into the national savings movement with a zest that characterizes all their work, some eighteen hundred of these home demonstration agents have been carrying the message of thrift into the farm houses all over the United States.

In appreciation of their voluntarily undertaken work, Director Braddock has written a letter to each worker, of commendation, which reads in part: "Thrift is primarily the people's concern. If thrift is to become a permanent national asset, the people's agencies and organizations must definitely assume their share of responsibility for inculcating thrift by including it in their program for action. Schools, churches, business and labor organizations, fraternal societies and women's organizations, as well as agricultural workers and agencies, are already undertaking this work and are in close co-operation with the treasury department."

According to Mr. Braddock's letter, plans for the creation of savings facilities in the home are outlined as follows:

1. Habit of saving first some part of income for future needs and of spending wisely for present needs.
2. Home betterment fund, to secure, for example, running water in the house.
3. Savings plan for every boy and girl.
4. Savings fund in government securities for every family.
5. Keeping of accounts to promote wise spending and to increase savings.
6. Safe investment of savings (Nos. 3, 4) in government securities until money is needed; War Savings Stamps as a desirable investment.

EASY TO SAVE

By the same token that the best way to have anything is do it yourself, the best way to get ahead in the world is save regularly and invest wisely. Your children may be buying Thrift Stamps but the nickels and dimes and quarters they are able to save won't buy a new automobile or a home or a cultivator. The money to do that will not be saved unless you save it.

It's easy enough to save if you do it the W. S. S. way. Quarters planted in Thrift Stamps grow into War Savings Stamps and the interest makes them grow like rain does a summer flower. Save for that happy opportunity. If you're not in a War Savings Society—get in one. Be with the crowd.

Did You Ever Say:
"IF I HAD THE MONEY?"

Then consider
REGULAR SAVING—be moderate about it—it gives you the power of
SELECTIVE BUYING, which saves you still more money, besides getting you just what you want and provides funds for
SECURE INVESTMENTS, which pile up money without help from you while you're getting some more.

It's **SURE** and it's **EASY**. Is anything better than that?

Conquer Fear.
It is an everlasting duty, the duty of being brave. Valor is still value. The first duty of a man is still that of subduing fear. We must get rid of fear; we cannot act till then. A man shall and must be valiant, he must march forward. Now and always the completeness of his victory over fear will determine how much of a man he is.

NOTICE TO AUTOMOBILE OWNERS.

Every automobile owner MUST procure his license and tags immediately. The law requires me to arrest every driver of an automobile which does not carry TWO 1920 LICENSE NUMBERS and seize the car. I DO NOT WANT TO HAVE TO ARREST ANYONE ON THIS CHARGE OR TO SEIZE ANY AUTOMOBILE. That is why I am publishing this notice and to warn every owner of an automobile to get his license and tags IMMEDIATELY. THE LAW IS GOING TO BE ENFORCED WHILE I AM SHERIFF.

I also WARN every owner of an automobile used as a public service car HE MUST get his license from me AT ONCE. The time has now run over thirty days and NOT A SINGLE OWNER OF A PUBLIC AUTOMOBILE HAS APPLIED TO ME FOR LICENSE. I am responsible for these taxes and they are charged to me and unless they are PAID TO ME WITHOUT FURTHER DELAY I will be forced to the unpleasant duty of arresting the operators of public automobiles without license. I have the license tags and am ready to deliver them to those who pay the license fees.

PUT WINGS TO YOUR CAR

Fill up Your "Crank Case" With "Green Flag" Motor Oil, And Ride as Easy as an Airplane!

A smooth running motor, with her power up to the "rep" notch, running without a "buck" or a thump or a jar, makes it a genuine pleasure in driving a car. Correct and **QUALITY** lubrication is the answer. It's the difference between trouble and pleasure. To those who appreciate just what correct and "quality" lubrication means, this information is superfluous. They don't have these troubles. Most of them use "GREEN FLAG" MOTOR OIL exclusively, and have forgotten what "engine troubles" are.

Your engine and motor are lubricated by a special system, provided by the manufacturer for that purpose. This system reaches every part of the motive power and its parts with minute regularity. If this automatic system of lubrication were not provided, you could not run a motor car at all. If you had to personally oil some 18 or 20 parts of the engine and motor every day before you started out, even if such a plan was necessary, and you knew exactly

where and how to distribute the oil, very few motor cars would be in operation. But the lubricating system of every car obviates any attention on your part except having the oil put in the heart of the system as you need it. That's easy. You just drive up and have the dealer put in the necessary amount. But the general failing of most drivers of cars is this—they drive up and say—"GIVE ME A QUART OF OIL." That isn't the correct way to ask for it, to get the best results. Drive up and say—"GIVE ME A QUART OF 'GREEN FLAG' OIL."

There are a number of "GREEN FLAG" MOTOR OIL dealers in this county. The dealers are well-known and reliable, and you can buy "GREEN FLAG" MOTOR OIL from any one of them with the assurance that you are getting the best oil, and the grade of oil best adapted for your needs. It will pay you to drive out of your way to buy "GREEN FLAG" MOTOR OIL from any of the following well-known dealers:
