Weekly News Letter From Peoples Bank & Trust Co.

IT HAPPENS IN POLK.

Henry Green carefully hid his money in a sock. Henry now has an odd sock and no money.

Susan Brice pushed her savings under a mattress. She still has the mattress.

George Martin carried six months pay in his pocket. George was held up, but all they took was his money.

Anna Mason hid two hundred dollars behind a brick in a chimney. Some one started a fire.

The above is taken from a bank ad in Cleveland, Ohio paper. The cases mentioned are of frequent occurrence. We would like to add a few more.

A Polk County citizen left some Liberty Bonds in his house. While away from home his house burned so did his Liberty Bonds.

Jim Bovode let a "slick tongued" person talk him out of his hard earned money for stock in a worthless concern. He now has a beautiful engraved certificate of stock.

Don't be like any of the above. Put your money in a "strong bank, such as this one, check against it or if you are not to use it at once put it on interest with us by taking a Certificate of Deposit, which pays you four per cent from date of issue and your money is ready for you any time you want it. Don't leave valuable papers around the house, rent a box in our Safe Deposit Vault and be secure. Don't make an investment without first consulting your banker. He has the facilities to get reliable information about all kinds of investments.

We rent safety deposit boxes for as low as \$2.00 per year, larger boxes at proportionate rentals. Don't delay, rent one today.

All deposits—made in our Savings Department until close of business Saturday will draw interest at the rate of four per cent from October 1st. The interest will be credited or paid on January 1st. Amounts may be opened for One Dollar. Sums of \$5.00 or over draws interest. Open an account by Saturday even if it is a small amount and add to it at regular periods, it will soon count up. If not convenient to come to the bank send in by mail. There is no red tape to either put in or take out—just tell us what you want to do.

To determine what bank you will do business with you should take into consideration the matter of service. This word service is mighty over-worked these days. Of course all banks have service or they could not stay in business. Then the thing is, which one can render YOU the BEST. A bank may be willing to give you good service but may not know how; another may know how but it is too much trouble to do all the little things now a part of modern banking service. Another may be willing and anxious to serve you the modern way but may not have the facilities, such as resources and experience and so on. This bank takes great pride in its service and the word is not an empty phrase with us. We have the facilities, experience and all of us are not only willing but anxious to serve you with banking service that can not be surpassed, even in the large cities. This is no idle boast, put us to the test and if we do not make good then quit us.

A Certificate of Deposit issued by this bank is a safe and sound investment. If you have surplus money consult with us about this form of investment.
