better because of wise living teday.

Education in thrift is an education

working for somebody else.

#### STEEL MASTER BEGAN TO SAVE WHEN YOUNG

Recognized That Success Lay in Sound Young People Must Be Brought to Investment-Safest Security in World Is Now Offered By Government.

Andrew Carnegie died not long ago. leaving behind him \$30,000,000. He is to save. It is also more fun-at had given away about \$300,000,000 in first. But money that is spent does an effort to avoid the reproach of not work for you. It is gone, and is

It is probable that the high cost of . It is as hard to make young people living gave the "steel master" little realize the necessity of saving as it worry during the latter half of his is to make them realize that they are life, but it is certain that in his boy- not always going to be young. It is hood the prices of the necessaries of so easy to be young and reckless. life were vital factors. And Andrew | But habits of thrift have to be Carnegie in his early years met the taught. They also have to be formed cost of living with the same remedy by practice. That means that the riswhich America's leaders, headed by ing generation must be taught to cap-President Wilson, are now putting italize its youth, and in childhood forth as the bisic principle of the shown how to distribute and allot such fight to withstand the menace that income as it may have. lurks in the soaring prices of today. That remedy is thrift—the practice of ilization. The savage lives today. The saving, the elimination of waste and civilized man lives today with an eye sound investment.

In the days when Andrew Carnegie, row may be as secure as today he 14 years old, earned \$1.20 a week as saves some of today's goods for toa bobbin boy in an Allegheny City morrow's use. cotton mill, and later when he earned \$11.25 a month as a telegraph messenger boy, the cost of living meant to spend. The wise spender is the much to him. He had little margin for saving. But he did save. There were few opportunities for the small eaver to make safe investments. Securities were not issued in small decominations. There were no Thrift Stamps or War Savings Stamps, backed by the government, into which the meager proceeds of the Scotch boy's mrift could be converted.

But Andrew Carnegie at the age of so determined upon safe investment. The soundest securities that offered were 10 shares of stock in an express company worth \$600. Carnegie had to borrow part of the money he paid. But he was convinced that savings lying idle were not performing their proper function.

The American man or woman, boy er girl of today does not have to borrow to add to the savings fund in order to find safe investment. The government makes sound security in the form of Savings Stamps, Trtasury Savings Certificates, and war bonds. available to every saver who will begin to practice thrift by the regular investment of sums as small as 25 cents.

Every American today has a better epportunity for success than lay before Andrew Carnegie when he faced the world.

#### NOW AND THEN

What is a dollar? Foolish question-you say? Not at all these days of H. C. L. and profiteering. Certainly a dollar isn't what it was ten years ago. It isn't what it will be five years from now.

A dollar is what you can get for it in beans, butterflies or bunk-no more, no less. A dollar wouldn't be worth anything if you couldn't get anything for it.

Ten years ago you bought, say, bunk at one dollar a portion. Now bunk costs two dollars. That doesn't mean it has doubled in value. It means that your dollar is worth half what it was ten years

This is, therefore, not the time to spend too many of your dollars. They will bring you only half of what they are worth. This is the time to ave them.

They will bring more later on. That is the history of dollars. Values run in cycles. As surely as you live five years a dollar will be worth more than it is now. Maybe twice as muh. So when you save a dollar now you are perhaps saving two dollars. Treat dollars as you would any other commodity. Buy them when they are cheap.

Stick every dollar you can into War Savings Stamps. Carrying 4 per cent interest compounded quarterly, a War Savings Stamp bought this month for \$4.22 will be worth \$5 January 1, 1924. By 1924 if the lollar is worth twice as much as k is now you will really have ten deilars for the \$4.22.

## ACTING

"Kinematic Surgery" Developed to Extraordinary Degree.

Italian Physician Achieves Remarkable Results in Fitting Artificial

Bologna, Italy.-Remarkable results have been achieved in Italian military hospitals recently by the use of what is known as "kinematic surgery," the invention of Professor Putti of Bologna part of American doctors attached to the Balkan commission of the American Red Cross who are supervising the artificial leg factories already established and being established in Athens, Saloniki, Belgrade and Bucharest for the war's mutilated.

At present allied soldiers in the Balkans who have lost their limbs are being fitted with artificial limbs and arms of a type similar to that employed by Sarah Bernhardt. Professor Putti's methods, however, are a distinct advance over all other arti-AS HABIT TAKES HOLD ficial appliances.

His treatment of amputated limbs consists of a unique preparation of the stump to develop a "motor" end to the cords which, after being bound together over a smooth "bearing" of bone, get as much as a three-inch travel of the leg by means of a reeducation and co-ordination of the muscles of the stump.

After the stump heals Professor Putti cuts out a flap of flesh, which he folds back into an incision to take the flap. This is allowed to heal and then through the loose flap of flesh a metal bar with attachments to operate the artificial limb below is

suspended. The muscles of the calf and thigh readily respond after some weeks to the movement of the artificial leg, and soon the pressure of the swinging of the artificial leg re-educates the muscles through the flap of flesh, so that stump actually operate by themselves the mechanical features of the artificial limb.

muscle groups surrounding the bone lows: are trained to operate catgut cords which, in turn, operate artificial fin-

Not since the introduction of "debridgement" in American army medical work in France has any medical innovation created as much comment.

#### The Sex of an Egg.

According to the Paris Academy of Science the sex of eggs laid by purebred fowls may be determined by weight and size. A test is to hold the egg in the left hand in the sun or close to an electric or gas light. Shade the end of the egg with the right hand, and look for the air space or "setting" (a dark, watery spot larger than a tencent piece); if this is found on the top it is a male, but if lower down the side it is a female egg.

#### Lack of Tact.

Jones-What a Jonah that fellow Smith is. After owing me \$5 for two years he came up to me on the street university. Professor Putti's methods and paid me right while I was talking have aroused intense interest on the to Brown, whom I had owed \$5 to for three years!

# Something New for the Young Man

· We have just received a shipment of Young Mens Suits that are simply worth more money than we are asking for them. They are the most popular patterns, of extra good material, one-quarter lined with silk, and the popular belted models. While they last we are going to sell them at

\$35.00

You can't go wrong in buying one of these suits'

## Men's Odd Coats \$6.00 to \$8.00

We also have one lot of pawnbroker's overcoats, that we are selling at from \$8.00 \$10.00. They are worth more

**Hunting Coats** \$5.50 Men's Fish Brand Rain Coats \$7.50 **Ladies Rain Coats** \$12.50

You will get good value for your money when you buy any of these, and we would advise you to come in before your size is sold, as these will not last long at these prices.

W. M. Lambright & Co. LANDRUM, SOUTH CAROLINA

# ARE YOU A CAPITALIST?

The dictionary defines a "capitalist" as one who has a "pecuniary surplus." The dictionary is wrong. A capitalist is one who has a pecuniary surplus "which is invested."

Are you a capitalist? You are if you are buying Was Savings Stamps or Treasury Savings Certificates. They represent "pecuniary surplus" or, in simple English, "savings," and they make your money work by bringing to you 4 per cent interest, compounded quarterly.

Are you a capitaist? Secretary of Commerce Redfield recently said to the Cleveland advertising men, "There are 64,000,000 subscribers to our Liberty Loans. I sus-

pect that many a factory is manned, as I know some government services are, by a force from top to bottom of capitalists, in varying degrees, but not the less really." Don't kick about the high cost of

living. Beat it by trimming your sails and buying War Savings Stamps. The capitalists are not kicking about the high cost of living.

Why?

Because they have money at work. Cut your expenses to the bone. Invest in War Savings Stamps. Be a capitalist.

SCOTCH SONGS TO DATE

If a body meet a body Coming through the rye: If a body save a dollar

Why, then, bye and bve. When the shiftless people holler "Money's Scarce and tight!" He who saves the nimble dollar, Will come through all right!

Should audd acquaintance be forgot And never come to mind? Why, no!-unless be is a sot And better left behind.

But one thing you must not forget, A thing more true than funny: "When your mind on saving's set It's easy saving money!"

Knowing War Savings Stamps are a good investment won't do you any good unless you back up the knowledge with your money.

Follow the example of rich men if you would be rich. They make their money work for them. You can do it by buying War Savings Stamps.
