tries. You don't have to be told, you can look and see.

Then go back up to Pat Arledge's in White Oak township and ask him about grass and clover, and on your way call by Mr. John Smith's and see the beautiful grass and clover growing on steep banks, where nothing else could be grown.

Mr. W. B. McSwain has sown and will sow this fall 45 acres to permanent pastures, Mr. Chas. J. Lynch 18, Mr. W. Scrivens 8 or 10, Judge J. J. Gentry, who is cooperating with us, 30 acres Mr. John Smith 7 to 8—and a great many have sown clover and grasses on a smaller scale and will sow more next season.

Now LISTEN, FARMERS.—Next Tuesday, Nov. 18, there will be a meeting of the Polk County Swine Breeders Association at Columbus for the purpose of completing the association, and invite others to acquaint themselves of their plans and join the association.

At the above meeting, the question of standardization of cattle for Polk county will also be discussed.

Now a good pull, a hard pull and a long pull for Pok county, or pull out.

TRYON WALKABOUTS AND TALKABOUTS.

The women have got well deserved credit for their Red Cross work. A Tryonite says that ever since the war began he's had a red, cross wife, because she's had her kitchen work to do.

After the other people have accomplished some enterprise some folks will rush in and hustle around, until rness work was done one of these fellows the chairman of the Red Cross meeting here the other day said the business work was done one of these fellows who hadn't peeped before, said everybody should do their part in the great work, so he'd move to adjourn. And it was carried unanimously too.

"There's nothing half so sweet in life, as love's young dream," says the poet. But after Tryon women have been the round of groceries in vain, they have to amend by substituting "sugar," granulated or lump,—for love's young dream. For sugar is becoming a dream of old young and middle-aged.

Climate teaches us geography better than the maps. A recent arrived Northern visitor, charmed with the fine autumn here said to a Tryon woman. "How glad you must be to have it so clear and warm after this cold, rainy, dismal fall." "But it's been so right along," said the Tryonite, surprised. And it took some time for both to comprehend that Michigan and North Carolina being about 1,000 miles apart, the weather in one State gives no clue to the kind they're having in another. Big country.

A solid Tryon citizen has shown some interest in shortening the chain-gang sentence of a blockader on the somewhat unusual plea that the whiskey he made was in every way superior to the usual run of the stuff that eats up the "innards" of those who drink it. The solid citizen said that his release therefore would be a public benefit. The superiority of his product was due, it seems, to the superiority of his copper still. Some of his competitors wishing to be public benefactors themselves stole his apparatus. In his philanthropic innocence he complained to the officials and asked their aid to recover his property. Thereupon he was tried and sentenced. There are queer people in this world. By "queer" I mean those who don't think and act as I do. Perhaps I will yet meet somebody trying to get a counterfeit released, on the ground that he made such fine bank bills they couldn't be told from the genuine and so nobody suffered any loss, the currency was increased and business helped.
ADAM JAY WALKER.

A Lady in Chicago Telegraphs for Rat-Snap.

Read Mrs. Phillips' wire: "Youell's Exterminator Co., Westfield, N. J. Rush \$3 worth of RAT-SNAP." Later rec'd following letter. "RAT-SNAP arrived. It rid our house of rats in no time. Just moved here from Pa., where I used RAT-SNAP with great results." Three sizes, 25c, 50c, \$1.00 Sold and guaranteed by The Ballenger Co. and The Carolina Hardware Co.

The season for pruning fruit trees will soon be with us, and attention should be given to this proposition by everyone who has any fruit trees at all. The Extension Service people in Ohio pruned 10 rows of apple trees which the following year bore 800 barrels of apples. The 29 rows next to these 10 pruned rows, and which were not pruned, produced only 1200 barrels. The Extension folks figured it out that the time spent in

pruning these 10 rows of apple trees paid at the rate of \$100 a day for the labor. The fruit in the entire orchard, according to these folks would have been worth \$5000 more had the whole orchard been properly pruned.—Progressive Farmer.

Mr. P. LaDuke, Farmer, Says. "You Bet Rats can Bite. Through. Metal."

"I had feed bins lined with zinc last year, rats got through pretty soon. Was out \$18. A \$1 pkg. of RAT-SNAP killed so many rats, that I've never been without it since. Our collie dog never touched RAT-SNAP. You try it. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by The Ballenger Co. and The Carolina Hardware Co.

There is no idle time for an industrious farmer. It is one continual round of work from January to December. When the crop is gathered and the long cold nights of winter have come it is the breaking of the day of next year; it is time to clean up the orchard, spray and prune, plant trees, set out strawberries, get out stumps, terrace land, repair farm buildings, repair gear and harness, give all livestock the very best care and attention.—The Progressive Farmer.

When Boston Was in Trouble.

In 1774, on the 1st of June, the Boston port bill went into operation. At noon the harbor was closed against all vessels and business was suspended. In a 90 days' notice the citizens of Boston were deprived of their means of gaining a living. Indignation ran high throughout the colonies, contributions were raised in other cities for their relief, and the people of Marblehead offered the Boston merchants the use of their wharves.

World's Highest Peaks.

The highest mountain peak in North America is Mt. McKinley, in Alaska, whose altitude is 20,300 feet, and the highest in South America, Mt. Aconcagua, in the Andes, on the border of Chile and Argentina, 23,093 feet. The highest mountain in the world is Mt. Everest, in the Himalayas, in Asia. Its altitude is 28,002 feet. There are several hundred mountain peaks in the Himalayas 20,000 feet or over, running to an altitude of 28,278 feet.

Millions of Miles of Water.

The volume of water on the earth's surface is estimated at 315,000,000 cubic miles.

Optimistic Thought.
Sunbeams of hope will drive away the mists of suspense.

Up-to-Date Styles

in Ladies' and Misses Coat Suits and Coats. All neatly tailored of the best grades of Serges, Poplins, Broadcloths and Tricotine, are now on display in our Ladies, Ready to wear department. The prices—well you will have to see them before you can realize how reasonable in price they are.

LADIES' COAT SUITS

\$15.00 \$17.50 \$25.00 \$30.00 \$35.00 \$40.00 \$45.00 \$48.00
