**ENDORSED BY GOV. BICKETT**

Mr. W. A. Cannon is in receipt of the following letter from Gov. T. W. Bickett.

Mr. W. A. Cannon, Lynn, N. C., My dear Mr. Cannon:—

I am much gratified to learn that the good people of Polk County are preparing to erect a worthy memorial to the brave men from Polk County who served in the world war. Certainly their faith and their achievements should be preserved in some enduring form. In honoring these heroes the people of Polk county greatly honor themselves.

Very truly yours, T. W. BICKETT.

**Vacation Reflection.**

I have had some treats in my little excursion, not the least of which was the gazing on some—albeit the smallest—of the "everlasting hills," and on those noblest children of the earth, fine healthy trees, as independent in their beauty as virtue; set them where you will, they adorn and need not adornment.—George Elliot.

**Durability of Sycamore.**

One of the most durable woods is sycamore. A statue made from it, now in the museum of Gizeh, at Cairo, is believed to be nearly six thousand years old. It is entirely sound and natural in appearance.

**Weekly News Letter From Peoples Bank & Trust Co.**

"Gambling is the stay-at-home, imaginary, squalid, mechanical and and unlovely adventure of those who have never been able to encounter or create the real, necessary and salutary adventure of life. It is the feverish and unhealthy activity of the wastrel!"—Maeterlinck.

The above quotation from the great Belgian philosopher and writer vividly expresses his high opinion of gambling. The great American trait is gambling in some form or another. If not at the gamin-table we gamble on the future by frittering away our income in our productive period. We fail to have sufficient life insurance to keep the family as they were kept in our lifetime. We will not cultivate the savings habit, preferring to spend all we make searching for pleasure that never come. It is a delusion and a snare, this searching for pleasure, this wanting to go, this wanting to spend extravagantly; all of which puts us in the frame of mind that we can treat our neighbor as ourselves.

Most every magazine and newspaper is telling of the "social unrest" and that if so-and-so is not done that we are going to be thrown into a state of anarchy or something just as bad. May be so. This much is certain however; if the individual does not prepare NOW for that storm that is inevitable he will most certainly suffer.

The carrying on of the rich at

places like Palm Beach, is nauseous and disgusting. Dispatches from there tell of large sums spent on purchases of houses to be torn down because they could not be utilized to meet the social standard set by the enormously rich. "My, what a long tail our cat's got". This idea is passed all along the line even in small communities. An old German called to his wife, who was cooking and said, "Mom, open der windows and let der neighbors smell our sausages."

When will the good old American "horse sense" come to our rescue? To work a little, play a little and save a little; lead clean wholesome lives, and teach our children the glory of work and to serve. The "idle rich" problem is solving itself as evidenced by the many plans in operation for taxing incomes, sur-taxes, inheritance taxes etc. and mark you these taxes will become heavier.

To summarize; Work more, spend less; Buy a home, carry life and health insurance and of course fire insurance. Recreation is as essential as work, so when you play let it be of a nature to strengthen you physically and mentally. Open a savings account in this bank even if you have only one dollar and add to that dollar weekly as much as you can. Don't gamble either for stakes on your future.
