

Change in Firm

I have purchased the interest of my father in the firm of H. Pace & Son and solicit the continuance of your patronage. I will endeavor to sell you good goods at reasonable prices and give you the best of service. I will appreciate your trade.

Respectfully,
Leo C. Pace.

Pay Your Bills With Pen and Ink

Many a quarrel would be averted and a few friendships which have been irreparably shattered would remain unbroken, if everybody paid their bills with pen and ink,

A cancelled check is conclusive evidence of payment and it immediately settles any question regarding the amount remitted.

Saluda's Schools.

Saluda's Seminary is an institution which Saluda is justly proud. This school was established by the Congregational church in 1889. Since that time it has done such good work that Saluda did not until recently realize the need of a public school. This explains the fact that Saluda had no public school building. Until last year the trustees for the public school funds had arranged with the authorities of the seminary to take the children of Saluda into the seminary. On last year the seminary had no classes below the fifth grade, and the local funds were used in establishing for the first time a separate public school. Last spring bonds were voted for a modern graded school building. The site has been selected, and as soon as the necessary business transactions are completed, the building will be begun.

Saluda Seminary opens Sept. 29, 1920 under most favorable conditions. The high standard of scholarship maintained during the last three years has resulted in the admission of its graduates to colleges and universities without conditions. Rev. Frederick M. Hollister who succeeds Prof. Stevens in conduct of the Seminary is well qualified to carry on the work which the growing needs demand. Mrs. Hollister is also experienced in school and community affairs and will be his assistant, it is welcome news that they are enthusiasts and promoters of healthy community sports. On every hand there are heard expressions of regret because Prof. Stevens, wife and Mrs. Loveland, are leaving us. There is no better way to show our appreciation of their work than to earnestly support Mr. Hollister and wife.

Better Baby Camp.

When Spartanburg people purchase the Monk property at Saluda and present it to the Baby Hospital, which they will do, they will be building for the future an institution that will have a far reaching influence in the enlightened combat against the appalling mortality among infants. That fight is on and is well under way, but there will be greater interest and appreciation of its importance in the years to come. Spartanburg is pioneering in this, and if it develops the ideas that crowd upon those interested in this little institution, the time will come when the community will be called blessed for the contribution it has made.

The Better Baby Camp has received and treated thus far this season 44 babies.

It has cared for and instructed 35 mothers.

Of these 44 babies, 28 have already been discharged cured.

Our physicians have paid 280 visits to the hospital and have stood for hours over very ill babies.

Grateful mothers and fathers, usually people of very limited means, have voluntarily contributed \$335 upon leaving the hospital.

The ladies of Union, S. C., without solicitation, have contributed to the hospital \$100.

Bellview Baptist Church, near Woodruff, without solicitation, has sent in a contribution of \$23.82.

Our monthly salary account was \$435 for June, and will be \$325.09 for July, and \$320 for August.

Our current expenses in addition to salary account are \$547 per month.

Necessary additions to our equipment have added to our expenses about \$100 per month.

W. H. K. PENELETON,
August 25, 1920. President.

Gregorian Calendar.

The Gregorian or reformed calendar, called "new style," was promulgated on March 1, 1582, and adopted by most of the Roman Catholic countries of Europe before the end of that century. It was adopted by Great Britain in September, 1751. At that time the United States were British possessions, and the new calendar was accepted by them.

Saluda's Oldest Man Passes.

When Ransom W. Pace died last Saturday morning, Saluda lost a venerable and venerated citizen. He was nearing his 85 birthday. He had been in failing health for some time, and had been almost an invalid for a year. However he had not been confined to his bed more than two weeks and the announcement of his death came as a surprise to many of his friends. The funeral was held in the Baptist church Sunday afternoon by his pastor, Mason, and his former pastor Justice. His body was laid to rest at Mountain Page. The pall bearers were P. H. Bailey, H. M. Tanner, M. E. Sheller, R. F. Robertson, P. H. Ward, and C. L. Hill. Mr Pace was a devoted man, devoted to his family, to his community, and to his church, he was a deacon in the Baptist church and gave the lot on which the church now stands. He is survived by his wife and the following children, Newton Pace of Jacksonville, Fla., Mesdames Maggie Garren, Ella Guice and William H. Pace. He leaves eleven grand-children.

Can You Beat It?

A 5 room bungalow every thing modern and up-to-date, only three blocks from Saluda P. O., fine site and all for \$1500.00. Apply to the Pickard Land Company.

Ex-Service man receives appointment.

Mills Nabers one of our boys who was gassed in France has just received a scholarship to the Georgia Technical school this fall.

Fosprints of Progress.

A good substitute for coal is obtained from certain fungi, which are dried and ground, mixed with cement and consolidated by pressure. In Norway a process has been patented to enable carbide to be used for driving motors. In Denmark a company has been floated to make briquettes from heather. These have a higher heat value than peat. Experiments are being made to use chalk quarl, especially that which comes from the Limburg mines, as a fertilizer.

Some Fine Apple Orchards.

We have some unusual bargains in apple orchards and orchard lands. Apply to the Pickard Land Company, Saluda office.

Home Talent Play.

The play a "poor married man" held in Library Hall, Aug. 20th, was a decided success. The play was given under the auspices of the ladies aid of the Baptist church, and was under the leadership of Mrs. Ethel Loveland and every actor seemed to have profited by much training. Horace Nabers showed exceptional ability in the portrayal of the character of Prof. Wise, the "poor married man". His first wife was a charming girl in the personage of Miss Minnie Cullipher, who not only captured the heart of Billy Black, a college student who was ably portrayed by Mills Nabers, but the hearts of the audience as well.

A dormitory mother-in-law well played by Mrs. Loveland caused a separation between the "the poor married man" and his first wife. Happily Prof. Wise found a charming wife in one of the college girls, this wife's part was aptly interpreted in the personage of Miss Bessie Sonner. Messrs Frank and Estes acted well the parts husband, father and grandfather. Jubiar Jackson the old darkey who was played by Lois Ward caused a great deal of merriment. Besides the play there was some good music, Misses

Womans Exchange

OPEN DAILY,
9:30 a. m. to 1:30 p. m.
5:30 to 6:30 p. m.

Lois Pace and Lila Mae Guice played a duet, Mrs. Keller gave a solo, Miss Mumford gave some of her dialect songs, and Donald Sanders rendered a solo.

To Copy Mountain Architecture.

W. M. Pickard, president of the Pickard Land Company, has been requested by a member of the Sebring Real Estate Company Sebring Florida, one of the largest companies in that state to furnish them with the best specimens of mountain architecture that can be secured any where in the Blue Mountain Ridge.

For variety this company, always going out after the best, has decided to introduce distinctively mountain architecture on the boulevard extending for twelve miles around Lake Jackson Sebring Florida, where they expect to spend large sums of money in the erection of the largest up-to-date winter homes. These homes will be rustic and striking in appearance and a pronounced new departure in home building in Florida.

No Fear of Phosphate Famine. Reserves of phosphate on the Island of Nauru, in the Pacific, are believed to be sufficient to meet the demands of the world for 200 years. Anything from 80,000,000 to 100,000,000 tons are available, and possibly more.
