INCREASED USE OF HIGHWAYS

Economic Problems Have Arisen That Call for Presentation of Facts to Public.

Owing to the rapidly growing use of the public highway as a passenger and freight carrier—both in short and long hauls—and the lack of a corresponding progress in the efficiency of the road itself, economic problems have arisen that call for a careful and a clear presentation of facts to the public. As a result of the divergence between the service highways are called upon to render, and their ability to render that service, the highway from an educational standpoint has become a subject of much greater importance than heretofore, so that highway officials—national, state and county—are placing greater reliance upon the educational phase of highway work in securing effective and practical co-operation from the public.

GOOD ROADS AID MARKETING

Farmer Wishing to Haul in Most Economical Manner Cannot Afford to Overlook Benefits.

The farmer interested in hauling his produce to market in the most economical fashion cannot afford to overlook the benefits derived from good roads. Investigation before and after the improvement of certain highways shows that the cost per ton mile was practically cut in half by reason of the betterment of the road. In other words, good roads mean a big reduction in that part of overhead which covers hauling—and hauling of some sort is being done practically the year round.

Must Fit the Road.

All roads are not good roads, nor will they be for years to come, and it is up to manufacturers of automobiles to deliver vehicles that can traverse anything called a road.

Road Surface Damage.

The filling up and stoppage of culverts causes more damage to road surfaces than any other one thing.

Argument for Good Road.

A bad road is the best argument there is for a good road.

LOOK INTO THE FUTURE

J Pierpont Morgan was a big money maker, because of his big vision—because he never allowed himself to be blinded by the things close at hand. He often said:

"Every man will go broke who is a persistent bear on the future of this great United States of ours."

This Bank holds an Optimistic View of the Future

We believe in the institutions of this town and community, and we are anxious to support financially any worthy enterprise.

THE BANK OF TRYON
Tryon, North Carolina
W. T. LINDSEY, President J. B. HESTER, Cashier

Peoples Bank & Trust Co's. Weekly Letter

The Tryon Community Fair was a revelation to many of our residents. The exhibits were many and varied. The promoters deserve great credit for their efforts as it took a vast amount of work. Long live the community fair.

Robbers and burglars are reaping a rich harvest in the nearby towns. Don't leave money, bonds or other valuables in your home or in the ordinary fireproof safe. Deposit your money in this strong bank. We will also take care of your bonds without charge. If you have other valuables rent a safe deposit box in our vault. We have taken every precaution to protect your valuables. We have a Managaneese Steel, Double Time Lock, money safe. Our vault doors are extra heavy and we have recently added the Anakin Burgar Proff

locks to each of our vault guard.

The readjustment period is happily passing thru the perilous stage and without any signs of a panic. As was predicted a dollar will be worth a hundred cents before a great while. Save your dollar today and watch them grow in value. We will help you and moreover we will encourage you by paying interest on your savings. An account may be opened for as little a sum as one dollar and deposits may be made as often as desired for one dollar or more. We will be very glad to have you call at the bank or send us your deposit by mail. We are serving patrons from far away Colorado, New York and Cuba.

A checking account in this bank identifies you with the county's most successful people and gives you a standing abroad when you send your check. We invite your account and assure you the last word in service. Further deponent sayeth not.

If you have non-productive funds we will pay you a liberal interest rate on our Certificates of Deposit and your money will be ready for you any time you want it. These Certificates are issued in \$50.00 and upwards and begin drawing interest the day issued. Feel free to talk with us about this gilt edge form of investment.

We have often cautioned our folks about buying promotion stocks or trading perfectly good bonds for wildcat stocks. Don't buy or trade for any stock without first consulting your banker. Many wildcat propositions are being marketed and our people should be on
