To the People of Tryon.
 Herewith is a letter written to our Mayor and Commissioners regarding the parks around the Southern Railway station. We ask that you read it then do as requested by Mayor Bacon. We would also suggest that the Mayor give our marshal instructions to break up the habit some of our loafers have of congregating around the station, especially on Sundays.

Polk County News, Tryon, N. C.
 Dear Sirs;

The following letter has been received by the Mayor and Commissioners of the town of Tryon.

Knoxville, Tenn. Nov. 6, 1920.
 Mayor & Commissioners, Town of Tryon, N. C. Gentlemen:

I have made repeated efforts to improve our small parks at our passenger station.
 To date have been able to accomplish very little on account of the loafers that congregate on the fence and even trample hedge, shrubbery and grass. This work if successful, would improve the appearance of your town and I will kindly ask your cooperation in protecting it.

Any assistance lent will be greatly appreciated.
 Yours very truly,
 (Signed) Mrs. HENRY FONDI
 Special Representative.

We ask the cooperation of the public in this matter.
 Yours very truly,
 F. P. BACON Mayor

Peoples Bank & Trust Co's. Weekly Letter

Your banker should be your friend, should be on the alert to protect your interests in every possible way. Many times your banker protects you, if he is the right sort, and you will not know of it. Many a person's financial success is dated from the time he had the confidence of his banker. This bank is constantly on the alert to benefit its customers. It is making good for this reason. The customer is protected by safe and sound banking methods. Every loan is considered impartially and the customer's requirements are met when the loan comes within sound banking.

It is going to work out all right in the end. We can all help bring about normal conditions by working more, spending less and paying our debts promptly.
 Don't keep money on your person or hidden in out of the way places. It is dangerous. Robberies and fires have caused millions of dollars loss. Open an account with this, or some other good bank, and check against it as needed—that is the business way. Money not in circulation hinders business—it is a loafer, doing the owner nor anyone else any good. A dollar in the bank is an active dollar. It works all the time. It makes business better and that helps you whatever your station in life may be.
 A Certificate of Deposit in this

bank pays a liberal rate of interest from the day deposited and your money is always ready should you need it. If you have idle funds call in and we will gladly explain how to put the money to work and bring you a fair interest rate.
 Our savings department is thriving and growing right on. A dollar will open an account and we will pay 4 per cent interest and compound it quarterly. If you have your regular account with some other bank and do not care to change open a savings account with us, even it is small we will appreciate the business. We have customers who started with us in a small way and now their accounts run in to nice sums. One dollar will start you.

 Tryon, North Carolina.

Where Icebergs Originate.
 The source of practically all the icebergs of the arctic and sub-arctic regions is Greenland. Owing to the northward set of the West Greenland currents the bergs of this side are carried first to the north and it is only at about the seventy-fourth or seventy-fifth parallel of latitude that they begin to make their way westward to come down on the Atlantic side.

You Must Believe This.
 Perhaps the most remarkable freaks of lightning was that related by John Still, the famous bishop of Wells. A storm broke over Wells cathedral during a service. Afterward the bishop, his wife and many members of the congregation found themselves marked with a cross on various parts of the body. Not a soul was injured by the lightning.

Under the Hat.
 A man may cover up a 5-cent head with a \$10 hat, but the minute he opens his mouth you forget all about the hat and say, "What a fool he is!"
 For Safety's Sake.
 It is a good thing that castor oil doesn't taste as nice as ice cream. If it did the kids would drink the whole bottle. And that would never do.—Milwaukee Sentinel.

Early Mesmerism.
 Braidism is an old name for hypnosis, derived from James Braid, who invented this species of mesmerism in 1843.

The Repeating Rifle.
 The repeating rifle was known and accepted in sporting circles as early as 1840, but was not adopted by the United States army until 1864.

Chuckles in Court.
 In a Rhymney valley police court it turned out that a defendant shot a pigeon, the property of a Mr. Fowler, and evidence was given by Mr. Bird.

BE PREPARED
 Every family should have an Atomizer. Examine yours and see if it is in good condition. We can furnish new parts or the New Atomizers complete in the latest design.
