BETTER NOT SAY IT!

Bad news travels faster than good news. There is an old saying, "No news is good news." Let a man be converted at a church service and there is not much of a stir, but let a resident be convicted of some crime and the news leaps by word of mouth from one end of the community to the other.

How thoughtlessly unkind we sometimes are when neighbors of our suffer misfortune. Troubles are bound to come to us all in some shape or form and what we say about our friends and acquaintances today may apply to us tomorrow. News is no respecter of persons.

We are prone to consider the ways of other not our ways when we should be watching our own step. What folks say of one another sometimes hurts more than anything they could have done. News, either good or bad, grows and becomes exaggerated and distorted with peddling. When news is good it makes no material difference how it is exaggerated or distorted—it can never do anyone positive harm. But bad news, given wings, may bring sorrow and ruin upon people who certainly are not deserving of a punishment beyond the penalty of their mistake.

More charity for others will make charity for ourselves and we will gradually come to take a keener delight in reporting something, good of some person than something bad. Good is constructive, bad is destructive. Just before you are about to let out a bit of "bad news," stop and think a moment. See if you can't think of something good to say in place of it. The chances are ten to one that you can and that you will.

FARM BUREAUS

In a spirit for ourselves and an attitude of genuine satisfaction farmers and business men throughout the country are expressing their appreciation of the work done by Farm Bureaus wherever these organizations have been established.

One act alone that Farm Bureaus have been instrumental in putting over is worthy of their organization—the forming of cooperative marketing associations. In starting soil building programs in every county, Farm Bureaus are also doing a great constructive work of much value to every farmer. Membership in the Farm Bureau being a family proposition, one can expect some real accomplishments along specialized lines such as better preparation, more thorough cultivation, more live-

stock and legislation favorable to the furtherance of agriculture and its needs.

It is well known that those who are not members of the Farm Bureau have been benefited by it. They have not benefited to the extent of the members but as in every other case the co-operative association has raised the price level and the outsider profited thereby. They have received better grades, lower interest rates on money borrowed, and nearer the market price for their products. To these things the thousands of members will testify.

The good done by the Farm Bureaus is only a drop in the bucket to what remains for them to do and what they will do. The farmer is soon to come into his own. Organization is the force which will place him there. The business man is not the farmer's enemy for the farmer must prosper in order that the business man may make money. It's a get together proposition and association means friendship and understanding, two mighty strong factors in themselves. A better era is just ahead. But every farmer must do his part to reap the full benefits.

NOTICE OF SALE.

Pursuant to the power of sale contained in that certain mortgage deed executed by W. W. Crawley and Maude Crawley, his wife, to J. T. DO YOU INCREASE your cost of Portland Cement

AN unprecedented demand for Atlas exists right now — a demand that cannot be met unless the empty Atlas bags now in users' hands are returned. In the course of a year close to \$5,000,000.00 worth of bags are needed by Atlas. This would be a heavy burden on cement users if the bags were not returned and reused, so cutting down the number of new bags needed.

Return your empty Atlas bags promptly to your dealer. Help him, and help us, keep Portland Cement the cheapest of all manufactured products.
