FARM BUREAUS

In a spirit for ourselves and an attitude of genuine satisfaction farmers and business men throughout the country are expressing their appreciation of the work done by Farm Bureaus wherever these organizations have been established.

One act alone that Farm Bureaus have been instrumental in putting over is worthy of their organization—the forming of cooperative marketing associations. In starting soil building programs in every county, Farm Bureaus are also doing a great constructive work of much value to every farmer. Membership in the Farm Bureau being a family proposition, one can expect some real accomplishments along specialized lines such as better preparation, more thorough cultivation, more live-stock and legislation favorable to the furtherance of agriculture and its needs.

It is well known that those who are not members of the Farm Bureau have been benefited by it. They have not benefited to the extent of the members but as in every other case the co-operative association has raised the price level and the outsider profited thereby. They have received better grades, lower interest rates on money borrowed, and nearer the market price for their products. To these things the thousands of members will testify.

The good done by the Farm Bureaus is only a drop in the bucket to what remains for them to do and what they will do. The farmer is soon to come into his own. Organization is the force which will place him there. The business man is not the farmer's enemy for the farmer must prosper in order that the business man may make money. It's a get together proposition and association means friendship and understanding, two mighty strong factors in themselves. A better era is just ahead. But every farmer must do his part to reap the full benefits.

All of Value Gone.

He that loses his conscience has nothing left that is worth keeping.—Izaak Walton.

Today's Wise Word.

"The world is so full of the unexplored! To those who care more for people than places, around every corner is something new—a world only dreamt of, if that."—Cornelia Stratton Parker.

Problems Before All.

The common problem, yours, mine, everybody's, is not to fancy what were fair in life, provided it could be—but first find what may be, then find how to make it fair up to our means.—Browning.

Chinese Telephone Exchange.

The "China" telephone exchange of San Francisco is unique. The building is of Chinese architecture, the operators are Chinese girls, and the Chinese subscribers call by name instead of numbers. The operators handle between seven and eight thousand calls daily.—Youth's Companion.

The Value of Shadows.

Reflections and shadows form an important and to decoration. The shadow of a spray of roses or a group of tall grasses against a light wall or table is very beautiful. So is the reflection of a well-planned group of furniture or pottery in a mirror. A gray silhouette of a vine is sometimes painted on the window shade of a sun room to give the effect of a shadow.

Point to Remember.

The fact that it is easier to do right when others are doing it is one reason for choosing good company.

A Treasure to Be Safeguarded.
Fuel Him—When you get a cinder in your eye, run home and put it in the coalbin.—Toledo News-Bea.

Could Supply World's Cotton.
Expert agriculturists claim that southern Australia is capable of producing enough cotton to supply the world's needs twice over, without colored labor.

Moses Needed All His Help.

Even Moses had a hard job as a leader. His followers were forever running to him with complaints. Without miraculous help he would have had a pretty mess on his hands.—Toledo Blade.

Odd Musical Instrument.

One of the most curious musical instruments ever made was the glass harmonica that Benjamin Franklin invented. It was composed of glass discs of different sizes set on a spindle and made by a treadle to revolve in a trough of water.

Sabbath Gain Preserved.

An American lady who visited Scotland not long ago relates that on returning from Kirk one Sunday morning she found that her landlady had closed her windows. When she spoke of the discomfort of it her landlady said firmly: "Your room will not get stuffy in one day. 'Twas never our custom, miss, to have fresh air rooshin' about the house on the Sawbeth."—Boston Transcript.
