Suggestions To Correspondents
About Writing News Items

The Polk County News is the only
newspaper published and circulating
in any community in Polk County.

Contributions of news items from
any section of this territory are wel-
comed.

Anything of interest to any num-
ber of people in this territory is suf-
ficient to be written and printed.
Typewritten letters are preferred.
If this is not possible, then write
plainly. Use plenty of paper.

Always begin letters by dating
thus: Tryon Oct. 10.

Correspondents should bear in
mind five important points WHO,
WHAT, WHEN, WHERE and HOW.
That is, tell WHO it's about,
WHEN, WHERE AND HOW it hap-
pened.

Tell those five things first and
briefly, then enlarge as may be nec-
essary.

Tell what's going on among your
own people and your neighbors.

Birth, deaths, marriages, per-
sonals, reunions and social gather-
ings are good copy.

Be careful in spelling names and

initials. Names are important.
Mention everybody connected with
the news item.

ALWAYS sign communications.
Not necessarily for publication, but
as an evidence of good faith. No at-
tention paid to anonymous, un-
signed communications.

Nothing to Regret.

The New York zoo has a giant
turtle that is said to be 400 years old,
and he looks it, too, from his photo-
graphs. Indeed, he not only looks as
if he were not having much fun now,
but appears to be almost devoid of
pleasant memories. So perhaps if
you are cut off in your early nineties,
you need not be so disappointed after
all.—Kansas City Star.

Wanted to Know.

Headlight Bill was a colored gentle-
man of sporting proclivities, who had
got his name from a large diamond
which he wore as a stud. He had oc-
casion to consult a doctor about a
"misery in his chest." The medical
man eyed the stud keenly. This made
Headlight somewhat uneasy. After
asking a number of questions the doc-
tor produced a stethoscope and placed
it squarely over the stud. Finishing
his examination the doctor looked
solemn. So did the patient. "Ain't it
genuine, doctah?" asked Headlight.

Earth's Many Changes.
The great changes that the earth
experiences may be judged from the
fact that four times since geological
eras began, generations of
man have perished in Europe, and
there is no reason to suppose that
this will not be repeated.
