An English Custom.

"With all due deference, my boy, I really think our English custom at the telephone is better than saying 'hello,' as you do."

"What," asked the party of the second part, "do you say in England?"

"We say: 'Are you there?' Then, of course, if you are not there, there is no use in going on with the conversation."

Sure Enough.

"I read in the paper last night," said Professor Pate, "that a member of the old German aristocracy had turned to burglary as a regular business."

"Why do you say 'turned'?" snarled J. Fuller Bloom.

MIDDLE LIFE CAUSED PAINS

Change of Life, for This Lady, Brought Many Disagreeable Symptoms, But She Found Cardui Helpful.

Morganton, N. C.—"When I had change of life, I suffered with my back, sides and head," says Mrs. J. M. Fisher; of this place. "It seemed like all the blood in my body rushed to my head. My face would burn and I would get dizzy when I would stoop over. I was so easily depressed and suffered quite a lot of pain. I was nervous and easily upset."

"I heard of Cardui and . . . sent for a bottle and took it. I wasn't sure I was better, but I knew I was no worse, so I thought I would try another bottle. After the second I knew I was better. I took about four in all, and then two more later."

"I certainly was helped."

"That many of the disagreeable symptoms attending 'the change' may be relieved, has been proved by the experience of thousands of women who have taken Cardui."

Certainly every woman is much better off who gets through middle age with as little suffering as possible, and the assistance obtainable from Cardui is valuable, indeed. No woman entering or approaching this critical period should neglect giving this well-known tonic medicine a fair trial immediately upon its need being indicated. Cardui is for sale by all druggists.

Mrs. Lodic Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Tyrone, Pa.—"A friend told my husband how Lydia E. Pinkham's Vegetable Compound had helped his wife, so my husband bought me a bottle because I was so run-down, had a nervous weakness, no strength in my body and pains in my left side so bad that I could hardly do my work. Before I was married I used to work in the factory, and I had pains just the same then as I have had since I have done my housework. I would not be without a bottle in the house now. It has stopped the pains all right and I have found out that it is a wonderful body builder, as it has made me well and strong. It is going to be the 'old reliable' with me hereafter, and I am always willing to tell other women how it has helped me. You can use this letter as you wish as I can honestly say that my words are true."—Mrs. M. LODIC, R.F.D. No. 4, Box 40, Tyrone, Pa.

Letters like this bring out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking Lydia E. Pinkham's Vegetable Compound.

Vast Lake of Pitch.

In the thirteen odd million square miles of territory which comprises the British empire there are many remarkable phenomena, one of the most interesting being the Pitch lake of Trinidad, in the West Indies. It is a natural reservoir of valuable pitch, 100 acres in extent, from which 200,000 tons of asphalt are exported annually. About half way across Kenya colony, in British East Africa is Mazadi lake, a vast natural deposit of soda. The lake is ten miles long, two or three miles in width, and seen from the mountains that surround it has the appearance of an immense ruffled white sheet.

Flapper Corn.

A gentleman farmer had a friend out to look the place over. After inspecting the tractors and one thing and another they came to a small inclosed corn field.

"What is this variety you have sown?"

"Flapper corn," was the reply.

"Flapper corn? I never heard of that. Is it something new?"

"No, I had it last year. That is when I gave it the name."

"And why do you call it flapper corn?"

"I can't see the ears."
