FRUIT TREES

The best varieties of apples and peaches.

Also Shrubbery.

It is better to set out your trees in the fall for two reasons, first because you have the work done and behind you when the spring rush of farm work is on hand, and second, because the dirt becomes thoroughly packed about the young tree's roots before sap begins, assuring more resistance to dry spring weather. Write Sinclair Nurseries at once for price on large or small lots, or better still make a personal inspection to satisfy yourself of the superior quality of our trees. Trees now ready for delivery.

Sinclair Nurseries, Route 3, Hendersonville, S. C.

Byron Feared Obesity.

Eurobarians find much to support the idea that Byron was in great fear of obesity. Enjoying the short season of fame that was his, he studiously refrained from eating heavy meals for long periods, then was quick to eat to excess in a short season. His poetic soul had a strong aversion to corpulence and he pointed out some corpulent neighbors at times as types to be avoided, slaves to an overdeveloped appetite, as he was wont to term them. —Ohio State Journal.

Earthquake Toll.

Disasters due to earthquakes and volcanic eruptions have had heavy death tolls, among the worst up to 1921 being that of Lisbon, 40,000 dead, in 1755; Martinique, 40,000 dead, in 1902; Messina and Calabria, 120,000 dead, in 1906, and Vera Cruz, 4,000 dead, in 1920.
