FRUIT TREES

The best varieties of apples and peaches.

Also Shrubbery.

It is better to set out your trees in the fall for two reasons, first because you have the work done and behind you when the spring rush of farm work is on hand, and second, because the dirt become thoroughly packed about the young tree's roots before sap begins, assuring more resistance to dry spring weather. Write Sinclair Nurseries at once for price on large or small lots, or better still make a personal inspection to satisfy yourself of the superior quality of our trees. Trees now ready for delivery.
