New and Staple Lingerie; Tailored Frock Is Favorite

JUST now the stores are emphasizing their lingerie stocks and showing all that is new in underthings for spring. The variety of styles is great enough to please different tastes and a few innovations in garments are having their try-outs; long-established favorites are shown with variations in trimming and little new finishing touches.

The ribbon shoulder strap seems to have outdistanced its rivals and appears on nearly all garments, sometimes in the double strap as shown in the step-in at the left of the picture. There are several style points worth noting in this model, and leading them all is its simplicity and the fineness of material, trimmings and work. It is made of crepe de chine and there is

on the way—with equal chances for finding approval, but only spring can tell which one will prove the favorite—all are in the running.

There are some trim and snappy coat-frocks among the first tailored garments to arrive, and they include models with high collars, others with scarf collars and still others with cape effects. One of the last is shown in the picture. This is a very simple affair—which is a strong point in its favor—fastening at the waistline and a little to one side. The long collar is edged with a plaited ribbon and the cape-like sleeves lined with a printed silk that provides also an undersleeve gathered in at the wrist. The narrow girdle is made of the material, which might be any of the smooth-faced

Step-In and Knicker Combination

a band of Irish crochet insertion across the front and back, with narrow Irish edging set along its edges. The hemline is scalloped and finished with a very narrow edging—a little fullness is introduced at the hips and a small piece of the crepe de chine set on the underside reinforces the underarm portion. A pretty medallion is posed at the left side in an open pattern of the lace.

A knicker and camisole combination is shown on the figure at the right, with wide flounces set on above the knees. Batiste serves to make this model and it has no trimming except bands of insertion set in below the top of the camisole. Satin ribbon is used for the shoulder straps and it belongs to the class of underwear called

suitings—for there are broadcloth, twill, flannel, charmeen and other weaves to choose from.

Scarf collars and tunics vary the coat frock and the scarf is an attachment that is becoming noteworthy in dresses and in suits. Many two-piece models, in barred flannel, have been presented, with straight coats and plain skirts—the boyish lines finding favor with women who are already arrived or traveling South. Stock collars of silk are often worn with these simple and smart outfits that achieve an amusing masculine air.

If the styles approved by visitors to the summerland resorts may be taken as an index of what is coming later in the North, we are to wear flannel in suits and frocks, capes and

Trim and Snappy Coat-Frock

coats. And in its company are alpaca and other lightweight firmly-woven goods that will make the summer suit a joy. Navy blue is scheduled for a triumphant return also, and there is little question that certain soft shades of green, already displayed in suits and coats and frocks, will add to the cheerfulness and the beauty of spring clothes. **JULIA BOTTOMLEY.**

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.)
(© 1924, Western Newspaper Union.)

LESSON FOR FEBRUARY 10

THE FAILURE AT KADESH

LESSON TEXT—Num. 14:1-10.
GOLDEN TEXT—The Lord is with us: fear them not.—Num. 24:8.
INTERMEDIATE AND SENIOR TOPIC—Why Israel Failed at Kadesh.
YOUNG PEOPLE AND ADULT TOPIC—The Crisis at Kadesh.

I. The Spies Sent Out (Num. 13:17-20).

Less than two years had passed since the Israelites were delivered from their Egyptian bondage. They were now at Kadesh-barnea, within sight of the promised land. Moses urged them to go in and take immediate possession (Deut. 1:21), but they failed because of their unbelief (Heb. 3:19). The record in Deuteronomy 1:19-25 shows that God did not take the initiative in sending out the spies but that request was made by the people. Representative men, a ruler from each tribe, were secured. There was a three-fold purpose in sending out the spies:

1. To see whether the land was as God had told them (v. 18).
2. To see whether the people who dwelt there were strong or weak, few or many (v. 18).
3. To see whether the cities were made up of strongholds or tents (v. 19).

II. **The Commission Executed (Num. 13:21-25).**
They entered the land from the south and traversed it to its northern limit. They spent 40 days in this investigating exploration. On their return from the north, they gathered some specimens of the fruit of the land. Two of them, perhaps Caleb and Joshua, bore a cluster of grapes upon a staff between them as a witness that God had spoken the truth about the land.

III. The Spies Rendered a Report (Num. 13:26-33).

On their return this committee of explorers rendered a report to the whole congregation. It was not unanimous.

1. The Majority Report (vv. 26-29). (1) A land flowing with milk and honey (v. 27). As a proof thereof, they exhibited the fruit. (2) The people who live there are strong (v. 28). (3) The people live in walled cities (v. 28). (4) The land is inhabited with giants (v. 28; cf. v. 33). They saw themselves as grasshoppers. Furthermore, they saw the people so distributed, the Amalekites in the south, the Hittites, Jebusites and the Amorites in the mountains, and the Canaanites along the sea, that it was impossible to take them.

2. The Minority Report (vv. 30-33). In part this report agrees with the first. It does not ignore the difficulties nor dispute the facts. It denies the conclusions of the majority. They did not minimize the task before them, but asserted that with God's help they were well able to take possession of the land, and urged immediate action. The ten had their eyes on the difficulties, but Caleb and Joshua fixed their eyes upon God. Caleb lived to see his suggestions made real.

IV. The Rebellion of the People (Num. 14:1-10).

This rebellion began by crying, which shows that they were cowards. Having left God out of the question, they now weep and howl.

1. Murmuring (vv. 1-3). This weeping and howling was turned into murmuring against Moses and Aaron. Though too weak and cowardly to take their enemies in the power of God, they could assail their leaders. They even wished that they had died in Egypt.

2. Proposition to Organize to Return to Egypt (vv. 3, 4). They proposed to select a captain as their leader. God took them at their word—sent them back to wander in the wilderness for 38 years, during which time they all died except Joshua and Caleb.

3. Moses and Aaron Prostrate Themselves (v. 5).

4. Joshua and Caleb Protested (vv. 6-9). They rent their clothes. They insisted that the land was good and that, if the Lord delighted in them, He would bring them into the land.

5. The People Were Filled With Murderous Hate and Proposed Stoning Joshua and Caleb (v. 10).

6. God's Interposition (v. 10). He manifested His glory before all the children of Israel in vindication of the loyalty of Joshua and Caleb. God then proposed punishment for Israel.

Sympathy.

Often the best act of sympathy you can extend to a friend in a great sorrow is to go to him and be with him, saying little or nothing; for there are sorrows that are beyond words.—Presbyterian Record.

God's Remedy.

There are wrongs in this world to be righted, but no moral philosophy will right them. God alone can meet such a situation with an adequate remedy.—Herald of Gospel Liberty.

Our Helper Is Omnipotent.
It is impossible for that man to despair who remembers that his Helper is omnipotent.—Jeremy Taylor.

God Hears.
But I know God hears the sob in the dark, and the dropping tears.

Why You May Need— **CHEVROLET**

There are three main groups of prospective buyers of Chevrolet automobiles and commercial cars. First, are all who know from comparison or through the experiences of friends that Chevrolet provides the utmost dollar value in modern, economical transportation of people or merchandise. Second, the large group of people with modest incomes who have the false impression that so good a car as Chevrolet is beyond their means.

They do not realize that due to engineering excellence and full modern equipment, Chevrolet operating and maintenance costs average so low that during the life of the car, it delivers modern, comfortable, fast transportation at the lowest cost per mile, including the purchase price.

Third, the smaller but very important group of car owners of ample means, only a small percentage of whom as yet realize that Chevrolet as an extra car virtually costs them nothing, due to the reduction in their transportation expenses effected by it.

We respectfully suggest consideration, investigation and comparison of Chevrolet with any other car at any price.

Nesting in the Snow

Did you ever find a nest filled with eggs in the snow? While such an experience may be put down in your nature diary as an event, it is quite possible, says Nature Magazine. The great-horned owl has more than once been discovered brooding beneath a white blanket in the midst of a February blizzard.

The Best External Remedy
for all local aches and pains, the result of taking cold, over exertion or strain, is an Allecock's Plaster.—Adv.

The Busy Bee

In order to store up a kilogram (two and one-fifth pounds) of honey, bees have to visit at least 6,000,000 heads of red clover, according to computations based on observations of their work by Dr. L. Armbruster of Berlin. Clover honey requires the most work. Fewer visits to other honey-producing plants are required, as low as 80,000 in the case of peas.

Pyramids of Egypt

The Pyramids of Egypt, some 7000 number, date from the period between the fourth and twelfth dynasties and were built as tombs for the kings. The most important group is at Gizeh, which includes the great Pyramid, the tomb of Cheops. Its perpendicular height is 451 feet and its base length is 750 feet. The pyramids are built of stone, the material for which was taken from the hills on the opposite bank of the Nile.

"DANDELION BUTTER COLOR"

A harmless vegetable butter color used by millions for 50 years. Drug stores and general stores sell bottles of "Dandelion" for 35 cents.—Adv.

Base Canard?

The boy furrowed his brow over the examination question, "What is a canard?" At last he wrote down his reply, "Something you can't be believed." He still finds it painful to sit down.—London Post

Ask for This New Book

"Concrete Around the Home"

Everyone who wants to improve his place or save money around his farm, needs the new Portland Cement Association booklet "Concrete Around the Home."

It tells in everyday language the easiest, simplest and most economical way to use Concrete for making drives, walks, septic tanks, garages and other permanent improvements. Easily followed instructions give you all the details necessary for estimating materials, mixing, placing and finishing the Concrete.

"Concrete Around the Home" is only one of our many booklets available without charge to those interested in using Concrete.

If you are planning any of the money-saving concrete improvements seen everywhere nowadays, such as a permanent floor, basement, or foundation for your buildings, a manure pit, feeding floor, corncrib or silo, we have a booklet on the subject with complete instructions for building it of Concrete.

Remember this service is free. The Portland Cement Association has 28 offices, listed below, and one of them is your office—the one nearest you.

Find which one it is, and write today about the concrete improvements you are planning.

There are people in that office whose business it is to help you save money by making it easy for you to use concrete. Let them show you how they can help you.
