Practical Instructions in HOME SEWING by Ruth Wych Spears

BOX PLAITS An exceptionally smart effect is gained in the Jenny hood I have sketched here at the left. In this dress pairs of the box plaits are held together near the bottom of the skirt with narrow bands of fur applied as shown at A, thus making a kind of double plait. The plait between each of these pairs is left free.

Another unusual and decorative treatment of box plaits is shown in the heavy silk crepe frock at the right. Here the plaits are arranged in points at the top. To do this lay the plaits in the usual way as shown at B. Cut the tops into points as at C. Then slash down about a half inch between the plaits as shown at D. Turn under the raw edges as at E and the skirt is finished.

Etiquette What & When to do it

By A. Leda. Any questions on etiquette will be gladly answered in this column if addressed to Leda, care of this newspaper.

DEAR ALEDA—When a man is with two ladies on the street where should he walk? D. L. R.

On the side nearest to the curb. DEAR ALEDA—An acquaintance of mine is going to a city shortly where he knows no one. I would like to have him meet a man who lives there and could show him about. Will you please make a copy of a letter of introduction for this instance? Thanking you. C. B. MUIRS.

I would suggest a letter something like this: DEAR RICHARD—This letter will be presented to you by my friend Henry Halster. I have seen a great deal of him and know what a fine fellow he is, and I want you to know him, too. Henry hopes to do a little business but more sight seeing in your great city and any little civilities you might show him will not, I know, go unappreciated. Sincerely yours, CHARLES BAKER.
