

INVESTMENT IN MOTOR CARS AND SCHOOL PROPERTY (Continued From Page 1)

A Comparison by Counties for 1925 In the following table, based on the value of school property for 1925 as reported by the State Superintendent of Public Instruction, and the number of automobiles as recently reported by the State Department of Revenue, the counties are ranked according to the total investment in motor cars. The parallel column shows the value of school property. Motor cars are figured at an investment of \$800 each, the figure of the National A. C. C.

State total investment in motor cars \$331,222,000. Total value of public school property \$70,758,335. The ownership of motor cars is perhaps the best single index of true wealth and income, and, therefore, of ability to provide school facilities. A study of the table will reveal some interesting comparisons.

S. H. HOBBS, JR., Department of Rural Social Economics, University of North Carolina, Rank County Investment Value of Cars Property

Table with 3 columns: Rank, County, Investment Value of Cars, Property. Lists 100 counties from Guilford to Graham with their respective investment and property values.

Avoid Butterfat Losses in Cream

Washing and Cleansing of Separator Is Big Factor in Skimming.

Thorough washing and cleaning of the cream separator is an important factor in clean skimming. Many dairy farmers are losing butterfat in skim milk unbeknown to them. There are many causes for loss of butterfat in skim milk, as it comes from the separator. The speed of the machine, temperature of the milk, rate of inflow, cleanliness of machine, smoothness of running and other factors will affect the amount of butterfat lost. The only way to guard against it is to test skim milk regularly.

Minnesota Investigation. An investigation by Goodwin Rogness, a cow tester in Minnesota, revealed definite advantages in favor of clean separators. Twenty-four separators were inspected and divided into three groups as to methods of cleaning. Group one, composed of five machines, was washed twice daily. After each separation, the skim milk was tested for butterfat. The loss per month on 300 pounds of skim milk daily was 1.5 pounds butterfat, worth 63 cents.

Putting the above figures on a yearly basis, it is seen that those in group one were paid at the rate of \$18.72 a year for washing the separators twice a day. Running warm or cold water through the machine after the evening separating saved \$12.72 a year as compared with group three where little or no attention was given the separator between the evening and morning skimming.

Latest Developments in Cucumber Pest Control

The latest development in the control of the cucumber beetle consists of a duster equipped with a length of tubing and a metal cone a foot or more in diameter. The cone, or hood, is placed on the ground over the plant and the dust applied. The beetles have no chance for a getaway.

PROGRESS IN BETTER SIRE CAMPAIGN

Considerable progress has been made in the Better Sires Campaign that is being carried on in Polk County. The campaign began a month ago, and thus far five farmers have bought a purebred bull and four others have agreed to get one as soon as one of their choice can be found.

There are thirty-two farmers in the county who keep grade bulls and twenty-five of the owners have been interviewed in regard to replacing them with a registered one. Almost every owner spoke in favor of dispensing with their scrub and getting either a purebred in its place or breeding their cows to a registered one in the community.

GREEN'S CREEK

We are having damp, cool, "dog days" weather today, which is very pleasant after the long drought. Perhaps if we have a little more rain now some of the late crops may be benefited even yet, though the outlook is generally discouraging for farmers. Cotton is very late, owing to continued dry weather, while corn has already passed the developing period, and has tasseled out, with no prospect of bearing. There may be a few exceptions to this, of course, but this is the prevailing condition.

Despite the anxiety that is felt, and rather freely expressed, with regard to our poor crops a fine community spirit is manifested. One result of this co-operative spirit is that we are to have at the school building on next Saturday night the second best picture play in this country, "The Ten Commandments". This special picture is being widely advertised, tickets have been sold, and are still being sold, so we hope to meet the financial requirements to see the famous picture without hardship to anyone.

Mesrs. Ellis and Wrenzy Hines went to Charlotte Thursday on business.

Miss Annie Belle Swain spent last week with relatives and friends in Spindale and Alexandria, N. C.

Miss Ruby Giles, who has a position in Spartanburg, S. C., spent the week-end at home.

Miss Amy Hines is spending several weeks with her grandfather, Mr. C. L. Rogers, at New Hope.

Mr. and Mrs. M. R. Giles visited Mrs. Giles' parents, Mr. and Mrs. Wilson, near Shiloh Church, Rutherford county, one day last week.

Mr. and Mrs. Sam Feagan attended church at Green River Sunday afternoon.

Mr. and Mrs. E. C. Hines and Miss Mabelle Jones went to Rutherfordton, Chimney Rock, Marion, and some other points, Saturday.

A large number of our people attended the funeral of Mr. Dolphus Moore Saturday. Mr. Moore was buried with Woodman honors, being a member of the local lodge. Funeral services were at the Moore home, with interment in the family cemetery. We extend to the bereaved family our sincere sympathy.

Farm Hints

A well-kept lawn is worth the time it takes. Guard rails in the pig pen keep the sow from mashing her young.

Most cream separators will do much better job of skimming the milk when they are warm.

The pocket gopher pays no attention to property lines. Get your neighbors to eradicate them, too.

A very good ration for pigs just learning to eat is the following: 65 pounds corn chop, 25 pounds shorts and 10 pounds tankage.

WHAT IS THE AMERICAN RED CROSS

An organization doing more good than any other organization in the world, by helping those in distress and bringing cheer wherever it is possible.

A letter received a short time ago by this Chapter asked if we would contribute six Christmas bags or as many more as possible to be sent to our service men stationed in distant posts. We answered we would and some of the churches have signified their willingness to fill a bag. The bags are to be made of some pretty bright cretonne, and filled with any of the following articles, it being suggested that nothing perishable such as candy, cake, or breakable articles be put in the bags.

- Suggestions for articles to be put into the bags: Pocket knife, Wash cloth and soap, Small memorandum books, Diaries, Tobacco pouches, cigarette cases, pipes, or anything in this line, Playing cards and puzzles, Key rings with chains, Mechanical pencils and pencil sharpeners, One or two handkerchiefs, Pin ball, Sewing outfits, Writing pads and envelopes, Musical toys, (tops, jack stones marbles). These provide a great deal of amusement.

Will anyone willing to make and fill a bag communicate with W. E. Kilpin? Tel 73 R. or P. O. Box 92.

Bags when finished are to be delivered to Mrs. Kilpin by Aug. 30.

THE RESULTS OF WAR

Last week there gathered on the Champs Elyses in Paris and marched to the tomb of the Unknown Soldier beneath the Arc de Triomphe twenty thousand veterans of the late war a tragic spectacle to view. The first line was a battalion of legless soldiers in little wheel chairs many of them propelling themselves others pushed by nurses. Next to them came the sightless, blinded by war, each led by their wife, sister or friend some with their eyes bandaged, then the faceless men hid by bandages, then other veterans wearing scars. Many with an empty sleeve dangling by their side, others on crutches solemn, dignified but pathetic no word of hate or anger, no complaint only a reminder of war only a call to America for a review of the terms of settlement for the war debt that France owed our Country.

We have always heard of gay Paris, but as that procession swung into Avenue d'Iena and placed an enormous wreath of roses at the foot of the monument to the American Volunteers inscribed, "A La Fraternite D'Armes". There was a hush a reverence a something that spoke louder than words from the heart of France. Something that came from the two million silent voices marked only by the white crosses where loved ones sleep. There was no sound of bugles or roll of drum no waving of banners but as that column of troops marched four abreast no one to guard, no show of bitterness there was something that impressed the mind and heart of America and the world, the sacrifice that France has made for justice for civilization.

Makes Good at Start

Shortstop Thevenow of the St. Louis Cardinals is one collegian who has made good in the big league right from the start. Soon after graduating he was placed at short for the Cards and he is now considered one of the stars of the National league.

NOTICE

AN ORDINANCE AUTHORIZING \$40,000.00 OF STREET IMPROVEMENT BONDS BY THE CITY OF SALUDA, N. C. Be It Ordained by the Mayor and Board of Commissioners of the City of Saluda, as follows:

Section 1. That there shall be issued by the City of Saluda, North Carolina, \$40,000.00 of Street Improvement Bonds, the proceeds of which are to be used for the purpose of constructing and reconstructing the surface of streets of the City of Saluda, whether including or not including contemporaneous construction or reconstruction of sidewalks, curbs, gutters or drains, and whether including or not including grading, such surface to be constructed either of bricks, blocks, sheet asphalt, bitulitic or bituminous concrete laid on a solid foundation or of concrete. The said bonds shall draw interest at not exceeding six per cent per annum, payable semi-annually, and shall be in such denominations and form, and the principal and interest payable at such place as the Board of Commissioners of said City of Saluda may by resolution determine.

Section 2. That the maximum, aggregate, principal amount of said bonds to be issued under this ordinance is \$40,000.00.

White Leghorns Produce Largest Number of Eggs

There is a general belief that no other hen is capable of laying as many eggs in a year as a White Leghorn. It is true that White Leghorns have shown remarkable egg-producing records and they are particularly well adapted for egg production instead of meat production. Different studies show, however, that the heavier breeds, such as the Plymouth Rocks, may produce just as many eggs and may be even more satisfactory for the small farm flock because of being better meat producers. Leghorns, however, are beautiful birds, highly ornamental and very popular.

The question is often asked, "Which is the best breed to raise?" All are good breeds and are capable of giving good money returns if the owner will take the proper interest in them.

Keeping the shoulders and collar clean and providing well-fitted collars will help prevent sore shoulders on work horses. A loose collar constantly rubbing back and forth over the shoulders soon brings on a sore.
