Tryon has a wonderful train service also good bus schedules.

The farmers are getting along with their grain sowing. We had a very severe hail storm last Friday, the 26th. Some of the largest hail stones that ever fell in this section, according to the oldest people's recollection. Of course it done but little if any damage to crops as they are almost a complete failure anyway.

CLARK'S SERMON

(Continued From Page 1) men change, but God does not change meanings change as our mind I have believed and am persuaded that he is able to keep that which I have committed unto him against that day."

People of God

"My people", who are the people of God? Those who seek and obey him, and have not only confidence but a reality of God's goodness and power, and who trust in His promises and so live and enter into peace and power. "My people shall dwell in a pleasant habitation and in sure dwellings."

Dr. Clark is an impressive speaker, his prayer was a benediction. There is something about him that makes you feel he is speaking directly to you. You are conscious that behind the speaker there is a man who commands your attention and awakens your interest and quickens your mind. He appeals to the finer qualities of his hearers. He does not divert the mind from his subject by frequent illustrations, but by centering his words on the vital thought of his text, he opens an inner door of your consciousness and strikes at the reality of the subject. He brushes aside what he considers the lesser and older belief and keeps before you the live and essential verities of his subject. Dr. Clark's reverence and quiet manner of presenting the truth make a deep impression.

TRYON HAS BIG TOWN FIRE DEPARTMENT

(Continued From Page 1)

Runs and drills. Through these the fire boys are determined that Tryon shall have the best fire service, salvage and orderly corps in the South; in fact in the country.

Had any one, or all who have seen fit to make humorous and occasional sarcastic comments on the activities and personnel of this new organization been listeners in on the banquet at Pine Crest Inn, Tues. Evening they would have been convinced that Tryons fire department was a sterling reality, and that it would provide the town with the best fire protection it had ever had.

The members and guests partaking of the dinner of rare excellence were: Chief W. A. Wilson, Chas. Ford, W. Creasman, Rosell Fisher, B. Williams, R. B. Bishop, Mr. Lipscomb, Mr. Triver, M. Ballew, Archie Butler, A. Fisher, Wilkie Capps, Ray Jackson, Jack Ford, James Fisher, E. Kerhulas, R. O. Andrews, V. Hall, Homer Arledge, J. Hester, Jr. Geo. Cathey, Hume Fraser, Hon. W. S. Green, Carter P. Brown, W. R. Mehaffey.

Dr. B. B. Bishop, the local Chauncey Depew toastmaster, presented an outline of the legislation needed to permit the department to successfully combat fires. These suggestions, covering the compelling of autos to run to curb when fire tocsin is sounded; to prevent the driving over hose lines during fires and drills; and blockage of alleys, were referred to the mayor and commissioners with the request that they be made laws with stiff fines attached for violations.

Mayor Green, in his usual, everyday happy vein, complimented the organization on its splendid beginning and expressed his pleasure over the culmination of his three year dream—the providing of an abundant water supply and the installation of an up-to-date fire fighting machinery. He assured the ladies of the support of the administration.

Short, encouraging addresses were made by Carter P. Brown, Chief Wilson, Fred, Swann, Wayne Creasman, W. R. Mehaffey.

A central and emphasized thought of those present was the prevention of fires rather than the putting of them out, and to that end it was arranged that every home in Tryon is to be visited bi-monthly by Chief Wilson and one member of the premises inspected and owner advised as to how his individual fire risks can be reduced.

Discussion relative to the protection of properties that are removed from fire plugs, revealed that this

and the fire department. The officers of the new organization are: W. A. Wilson, chief; Chas. Ford, assistant chief; Wayne Creasman, second assistant chief; B. B. Bishop, secretary and treasurer; drivers, R. Fisher, B. Williams, B. B. Bishop. Tryons' man fire protection is a volunteer service, without compensation, and as such is a full encouragement to every citizen. The organization has iron plates to attach to every house to attract the attention of the fire department.

On the Southern there is in effect a bonus-payment system through which the employees engaged in train operations may share the benefits of economies due to their efforts.

Ask a SOUTHERN RAILWAY man

THE 60,000 men and women workers on the Southern Railway System know that their welfare is bound up with that of the Southern—and that whatever benefits the Southern and the South benefits them.

Southern Railway men and women are business getters for the Southern. Talk to a Southern Railway man about your transportation requirements. He has behind him the support of his fellow-employees and of the management. If he does not have the information you desire, he will get it for you.

Southern Railway employees are bred and trained in the traditions of the South and of the Southern. They have the desire and ability to maintain those traditions.

What Do You Feed For Roughage?

If you feed Alfalfa, then you need Ce-re-a-lia Sweets, a high grade 20% Concentrate.

Suppose though, you have a low grade roughage, such as mixed hay, corn fodder or the like. Then you must feed a 24% Concentrate like Tuxedo Dairy.

There's no one standard protein feed suitable for dairy cows under all feeding conditions. So if you don't balance the entire meal you lose in milk production. We sell Tuxedo Dairy Feeds on this basis and guarantee results.

Suppose you come in and see me, and I'll explain more about Tuxedo Feeds and tell you about our four weeks' trial offer.
