(Continued From Page One) ladies were able to sit inside, but the men had to hang on the sides or sit on the top. During the evening I took a little walk around the town of Ocracoke, enjoying the little trees and plants that grew in the sand (there was no earth there that I could see).

The next morning I was up about

5 a.m. in order to be ready to leave at 6 a.m. The jeep that takes the mail to Hatters came for me then, and I left sitting in the front seat between the driver and another native: a young couple carry alk. It took the buses first with their baby sat in the back and then the iceps, cars and truck seat. Our on'y road was tire tracks in order, leaving the duck to cros thru the sand but it was fairly smooth traveling. The scenery consisted of sand dunes, grass, sea and I kent watching for wi'd horses, and the first we saw were just little spots in the distance We passed some cows that run wild most of the time, as cows do on western ranches. I noticed some queer tracks in the sand, which I thought might be made by a tractor with lugs, until we passed close to a herd of about 8 wild horses, that ran off immediately on seeing us. Then I could see that horses had made these vtrange tracks.

Our ride in the leep up the island of Ocracoke lasted about an hour when we came to the Coast Guard station at the northern end of the island. Here we left the jeep and all got on a small boat to cross the channel to Hatteras. New sand bars seem to be constartly forming, so that in the near future, the two islands might be joined.
