### Legal Notices

#### NOTICE OF FORECLOSURE UNDER DEED OF TRUST

Under and by virtue of the power of sale contained in that certain Deed of Trust executed by George Hardesty and wife, Goldie W. Hardesty, to R. P. Holding, Trustee, dated March 15, 1946, and recorded in Book 108, Page 594, Carteret County Registry; and default having been made in the payment of the indebtedness secured by said deed of trust, and upon demand made by the holder of the note secured thereby, the undersigned Trustee will offer for sale, and will sell, at public auction, to the highest bidder, for cash, at the court house door of Carteret County, at Beaufort, N. C., at 12:00 o'clock noon, on the 29th day of November, 1948, the land described in said deed of trust, the same lying and being in Morehead Township, Carteret County, North Carolina, and on Atlantic Beach, more fully described as Lots Eleven (11), Twelve (12) and Thirteen (13), Block One (1), together with all buildings and improvements situated thereon, as appears in the official plan of Atlantic Beach. Terms cash, and no bid will be considered unless accompanied by a cash deposit of at least 25 per cent of the bid.

This, the 27th day of October, 1948.

R. P. Holding, Trustee  
Hamilton & McNeill, Attorneys,

#### MRS. SMITHWICK

(Continued From Page One)

and 18 great grandchildren. Her eight children are as follows: J. Ed Smithwick of Mt. Olive, Lee Smithwick of Belhaven, Cleveland and McKensy Smithwick, Ponzer; Mrs. Margaret Dunbar of Winona; Mrs. Annie Davis of Davis Shore; Mrs. Carrie Paul of Pike Road;

### Prices

(Continued From Page One)

He emphasized that the reduction applies to potatoes only, and said the move cannot be regarded as a precedent in establishing the general level of price supports under the new farm law.

Under the new act, the Secretary of Agriculture is directed to support the prices of potatoes, dry beans, dry peas, turkeys, soybeans for oil, peanuts for oil, American Egyptian cotton and sweet potatoes next year at not less than 60 per cent of parity.

In general, however, farm support prices will be supported through 1949 at 90 per cent of parity. These crops include the so-called basic crops — wheat, corn, tobacco, rice, peanuts other than for oil, cotton and tobacco.

In 1950, the secretary will have authority to establish flexible supports ranging from 60 to 90 per cent of parity, on virtually all major crops except tobacco. In the case of tobacco, the support price is fixed permanently at 90 per cent of parity provided marketing quotas are in effect.

Brannan said he was forced to drop the potato support price because of the high losses the government has incurred in supporting them.

He said, however, that he does not think this is the time to be talking about reducing the prices of farm products "without relating that discussion to the many factors which go into the production of farm commodities."

"In fact," his statement continued, "at this very time, the costs of things which farmers must buy to carry on their production are higher than they were a year ago, notwithstanding the fact that the prices they receive for their products are generally lower."

"If there had been any other mechanism to attain the sharp adjustment in potato production which is long overdue, I most certainly would have used it."

So far this year, the government has bought about 60,500,000 bushels of potatoes in order to support prices, paying an average of about \$1.45 a bushel.

Actually the government's loss has been greater than the amount it paid to support prices. This is because an effort has been made to put potatoes to useful uses, such as commercial alcohol production. The government has paid the freight on such sales and this has exceeded what it received for the potatoes.

The 1949 potato goal of 1,938,000 acres includes 1,223,100 acres for commercial production, with the remainder for non-commercial production (less than 3 acres).

The acreage goals by states, in thousands of acres included: Virginia 24.0; North Carolina 20.5; South Carolina 7.9; Tennessee 3.8. Potato acreage in Carteret county last year was approximately 1,600.

### Menhaden

(Continued From Page One)

channels is being maintained. Wallace channel is the only entrance from the ocean to inland waters between Norfolk and Beaufort.

In an effort to force immediate investigation of this problem, Mr. Walker contacted Sen. J. M. Broughton when efforts to get in touch with Congressman Graham A. Barden failed.

Catches of menhaden this week have been excellent, with all factories working full-tilt. On Wednesday night one of the boats at a local plant was merely sent out to sea again to wait until the next day to come in because the baiting crew refused to unload any more fish.

Calls at other fish plants for baiting crew help brought no response. All the other crews were tired out too.

Spasmodic failures of electric power in Beaufort this week have been due to adjustments being made in power lines because of the sudden load of current needed at the fish plants. Outages have occurred three times but have been of only 20 minutes' duration. George Stovall, manager of the local Tide Water plant reported.

Oil yield on the fatback catches has been above average.

Mrs. Bell Squires of Ponzer. A visit to Mrs. Smithwick is well worth while, but don't go to her home to find her. She is apt to be gillywagging around visiting some of her eight children for a day or two at the time. Best thing is to go to the postoffice, which her daughter-in-law keeps, and make inquiry.

Sapphires and rubies are basically the same (time), the difference being only in the color.

### Teen Topics

By "Gene" Long  
Morehead High School

Hi folks! The basketball season got off to an unofficial start last Thursday afternoon when the cheerleaders led in a student pep rally. First on the program were talks by our principal, Mr. Windell; our coaches, Miss Crosby Page and Mr. Gannon Talbert; our two captains, 7i-sie Jane Willis and Buck Matthews.

By the way, our captains are both from the senior class, have played four straight years of first string basketball, and are hard to beat. I don't have to say that we are very proud of them and will continue to be. The cheerleader then took over and led in cheers, some old and some new.

The Teen-Age club is sponsoring an informal Harvest dance, November 26, at the Teen-Age club. The public is invited and the admission is 25 cents and 50 cents. The theme of this dance is "Under the Carolina Moon." Everyone is invited and we wish a large crowd. If you don't want the building to close for lack of money, you'd better come.

#### OCRACOKE
