

Morehead City Travels to Maysville Tonight

With hopes for more competition than they received in games Friday night against Maysville-Pellockville, Morehead City basketball teams will travel to Pellockville tonight and hand out some more of what it took to pile up a 39-14 score in the girls' game and 69-23 in the boys'. This was the locals' second win in as many starts this season. The girls played an excellent game with the scoring divided between three players—Elsie Willis with 15, Nancy Derrickson with 12 and Pattie Jean Bell with 12.

For Maysville the high scorers were Gerock, No. 13, with 7 and Trot, No. 7, with 6. I might add that all of Morehead's 39 points were field goals with the exception of one foul shot made by Elsie Willis. Quarter scores were 12-1, 20-2, 34-5, 39-14.

The boys played a fast and furious game and came out the winner by a score of 69-23. The second string was substituted in the second and fourth quarters. Berl Lewis, playing for Cordova who was injured last Tuesday night, was high scorer with 15 points.

Buck Matthews followed close behind with 14. The rest of the score was made as follows: Ray Lewis 12, Peagle (Peagle's name was incorrectly spelled Peagle in Friday's issue) 11, "Struggle" Steed 5, Bobby Matthews 4, Bobby Bell 2, Mickey Woolard 2, Charles Macy 2, Larry Woolard 1, Tommy Bennett 1. High for Maysville was Rouse with 9. Quarter scores were 19-4, 35-9, 56-11, 69-23.

Dura-Lite MASONRY
is extensively used in
THE FINEST BUILDINGS

In the construction of many of the country's finest commercial and public buildings, where the primary considerations are fire safety, great structural strength, building flexibility, low upkeep cost and architectural beauty... you will find modern Concrete Masonry being used as the preferred building material.

In the city of Detroit, there is probably a greater diversity of Concrete Masonry buildings than in any other metropolitan area in the country. Here you will find majestic churches, beautiful theatres, ultra-modern schools, club houses, apartment buildings, commercial buildings of every description... and thousands of homes... built to the highest architectural and construction standards, using Concrete Masonry as the best original building material.

Be guided by the choice and experience of experts who build for the future as well as for today. Specify "Concrete Masonry" for permanent satisfaction.
