ter from the Veterans Administration, and we quote: "Veterans assigned "C" (claims) numbers by the VA are urged to memorize them, so they can use the numbers readily when they write or call VA about their benefits. Use of "C" numbers speeds up service to vet erans. A number is issued to each veteran applying for compensation, pension, schooling, on the job training or other VA-administered benefit. The number, appearing on his case folder, will identify him in VA records the rest of his life, and may be used by dependents after his death. "C" numbers often are the only means which VA can distinguish one veteran from another. With some 24,000,000 veterans' names in VA's files, many names are duplicated thousands of times over. The files contain 217,000 Smiths: 12,500 of them named John! Also on file are 38,500 Adams, 960 of whom are named John Quincy: 7,000 John Browns; 9,000 William Browns; 12,000 Bradleys; and 102 Eisenhowers." So do as you're asked, boys, MEMORIZE THAT C-NUMBER!
