Your "Fish Edition" is so realistic, I could smell Menhaden being cooked and the perfume-like aroma wafting gently into my station windows until suddenly one of our man-sized Diesel motors pulling 95 loads blasted four short wheezes for the "board" which had the effect of changing the odor to that of burnt oil emanating from the half dozen brick mills located here at Colon, the largest grouped output in this section of the county. Yours truly, A Subscriber

Arapahoe Woman Receives Burns Aboard Boat

Mrs. Earl Keel, Arapahoe, is reporting today at Morehead City hospital from severe burns received aboard an oyster boat while she and her husband were traveling from Arapahoe to Cedar Island Sunday.

The boat, which belongs to the Keels, caught fire from the carpentering today at Morehead City Mrs. Keel below. Her husband nud them out by using a draw bucket, but he too was slightly burned. He was treated at the hospital and discharged.

The accident occurred at 5 o'clock Sunday afternoon in North Bay.

Talked at By Wild Parrots SYDNEY, Australia — (AP) — A man in South Australia is greeted with "Hullo, Cockie!" by large numbers of wild cockatoos wherever he goes in his district. He is Mr. H. J. Castania, caretaker of a closed-down mine at Evanstown. With no neighbors within 100 miles, Mr. Castania has made friends with the birds. For a number of years he captured young galahs, a species of rose-breasted cockatoos, kept them for a time, taught them to talk, and then released them. They, in turn, have "taught" their wild companions.

October, 1949 or this notice will be pleaded in bar of the recovery. All persons indebted to said estate will please make immediate payment to the undersigned. This 29th day of September, 1949. Mrs. Bertie Russell, Executrix

This 26th day of October, 1948. Betty D. Davis, Executrix of Mary D. Scherer.

786 Motorists Lose Licenses During October

WALFINGHAM — During October, 786 motorists in North Carolina were shorn of their driving licenses because of drunken driving bringing to 7,259 total drunken driving convictions for 1948, the Motor Vehicle Department announced today.

The October drunken driving convictions were 284 higher than for the same month last year, when 502 persons were convicted. A total of 1,257 drivers in North Carolina lost their driving privileges during October because of traffic law offenses and practices detrimental to Highway Safety. Revocations totaled 1,025, and suspensions 232.

These included 75 persons caught driving drunk outside the State, 43 driving drunk and miscellaneous, 34 driving after license was revoked, 16 for two offenses of reckless driving; 31 for reckless driving and miscellaneous; 39 for speeding over 75 miles per hour.

During the month, 45 persons lost their licenses for a second conviction of drunken driving. A second drunken driving conviction means mandatory revocation of driver's license for a period of three years.

Twenty-five persons were deprived of their licenses for being habitual violators of traffic laws, 37 for failure to maintain proof of financial responsibility, 32 for two offenses of speeding over 55 miles per hour, 19 for transporting liquor, and three for involuntary manslaughter.

During the month, 492 persons were convicted of reckless driving, bringing to 4,078 total reckless driving convictions for 1948. Reckless driving, however, requires no revocation or suspension on first offense.

In addition to the major violations which are cause for revocation or suspension, there were 6,329 other violators who were convicted, but not deprived of their

driving licenses. Speeding took the greatest toll, with 2,744 convictions, bringing speeding convictions for 1948 to 26,161.

Other offenses: failing to have driver's license, 1,440; faulty equipment, 433; improper lights, 264; running through red light, 285; passing school bus loading or unloading, 47; driving on wrong side of road, 50; passing on curve, 34; passing on hill, 25; failing to stop at intersection, 30; failing to dim lights, 60; failing to stop when entering highway, 30.

Of the total violators for October, 5,689 were North Carolina, and the remaining 660 were out-of-state drivers.

Stupidity Cost Luftwaffe Victory in Britain Battle

LONDON — (AP) — Stupidity and overconfidence probably cost Marshall Goering's Luftwaffe its chance of victory in the Battle of Britain, an analyst for the magazine "Aeroplane" has concluded. German flight experience gained on Franco's side in the Spanish civil war led to the Luftwaffe's major error, the magazine said.

"Success of the Heinkel 111 and Dornier 17 in bombing operations convinced the Germans that because they were sufficiently fast to outstrip most Republican fighters, heavy armament and armor could be dispensed with, and it was this mistake perhaps more than any other that cost them the battle of Britain," it observed. "The operational personnel had become aware of this fallacy by bitter experience

when attempting unescorted bombing operations, but, as happens to often, the (Luftwaffe general) staff was blissfully unaware of reality."

This attitude was reinforced in the early phases of the European war where little opposition was encountered. But when Goering began his all-out attack on Britain in the late summer of 1940, there was a different greeting awaiting his lightly equipped air-force. "The shattering fire power of

eight .303 machineguns, which the Hurricane shared with the Spitfire, literally tore the unarmored bomber to shreds," the magazine said. The cumbersome bomber formations were so slow that escorting fighters found it almost impossible to maintain positions close to them, as they were ordered to do.

Good rubies or emeralds of four carats or more are usually more valuable than diamonds of the same size.

Gears can be made of wood, cotton fabrics, leather, plastics and glass.

About 175 million gears are used in making five-million automotive vehicles.
