HOMES FOR AMERICANS

AP Newsfeatures
A television house is one of the newest developments in architecture. This plan 2659 by Herman York, architect, 199-33 Kenon Ave., Hollis 7, N. Y., is designed with a shaded alcove in the living room to accommodate television set, radio, record player and home movie screen.

Fireman, Save My Goldfish
BRIDLINGTON, England—(AP)—It looked like curtains for Sammy the goldfish. The hot sun shined through his glass bowl at Miss M. King's house set the window drapes afire.

Prague Drops Tito Name
PRAGUE—(AP)—Another monument to Marshall Tito has disappeared here. The name of Marshall Tito College has been changed to the College of Jan Comenius.

Czech Education System Due for Overhauling

PRAGUE—(AP)—Czechoslovakia's educational system is due for an overhauling so that students who get as far as the university will have something more than book knowledge.

One student who applied to enter journalism school was asked "Who is Dmitrov?" He didn't know. "Well, what about Vlahinsky?" The answer: "Never heard the name."

One girl student who wanted to become a school teacher and recited reams of Shakespeare to prove her literary ability, was turned down because, among other things, she insisted beer was made from grapes.

One candidate for the medical college insisted that "The Marshall plan is an organization of the American Unitarian church which distributes Bibles and baby clothing in Germany... or in western Europe."

The answers have to be right politically, of course. And the answers may, or may not, have been in books somewhere along the educational assembly line.

It's the answers that are making the educational authorities see red.

Building for Defense

We don't want war, but we must build our Nation's defense with equipment and men trained for military service.

With safe, sound life insurance protection, Woodmen likewise are building their defense against unexpected disability and expected old age, together with security for their families.

Build BETTER FARM STRUCTURES with Dura-Lite BETTER CONCRETE MASONRY. In planning your new farm buildings, it is wise to protect your investment and, at the same time, build for lifetime service by selecting a basic material of proven durability, ready availability and low cost. Dura-Lite Concrete Masonry units give you all of these advantages and many more - such as fire-safety, storm-safety, ventilation, neat appearance, sanitary construction, etc. There's a difference in Concrete Block units just as there is a difference in soil fertility... depending upon how either the block or the soil is built up. Dura-Lite Concrete Masonry units are made on a machine that subjects the concrete unit to very intensive vibration that shakes the material into a compact, tightly molded block, free from air holes or other imperfections. When you build... use Dura-Lite Better Concrete Masonry for best results. See us for your requirements. - MANUFACTURED BY - New Bern Building Supply Co. NEW BERN, N. C. Sold in Beaufort By G. W. HUNTLEY
