Harold H. Sampson, Morehead City, who was released from directorship of the Carteret USO Club last February and purchased the franchise rights for 25 counties in Eastern North Carolina of "Mail-Me-Monday," a National Bookkeeping and Tax service, opened an office in Morehead City and the service, which is especially adapted to small business at a minimum cost, has met with unlooked for success all over the country. Mr. Sampson commented recently. "During the year, 43 clients in Morehead City, Beaufort, Swansboro and Jacksonville have taken on the service and are having their bookkeeping and tax worries taken care of by 'Mail-Me-Monday.'"

but will diversify broadly. Those who have too many stocks will gradually build up good reserves, in cash or governments, for the big break which will come some day. Careful buyers of stocks will insist on making full payment and avoid borrowing during 1949.

36—Safe dividend paying stocks will be in greatest demand, especially if double taxation on dividends should be eliminated.

Rents 37—We are definitely bearish on low-coupon-rate, long-term taxable bonds as money rates will gradually increase.

38—If Congress should exempt dividends from double federal taxation, 1949 will see a further falling off in the prices of certain tax-exempt bonds.

39—We forecast no change in the nation's monetary policy relating to credit control and interest rates during 1949.

40—Investors will give much more attention to diversification in 1949 and will try to have their bond maturities either fairly short or staggered.

41—City real estate will continue to hold firm through 1949, due to less available rental space caused by pulling down structures to save taxes provide parking spaces, etc. There also is a disinclination to build new city property in view of the present high costs.

42—Suburban real estate will continue in fair demand during 1949 although there will be some shading of prices.

43—Big commercial farm acreage will sell for less during 1949; but subsistence farms, located close to established communities, will hold up in price.

44—General building will decrease during 1949 although the cost of building may decline a little. The quality of workmanship will improve.

45—Both office and residential rents will be higher in 1949. Only as property owners are granted higher rentals, will there be enough houses to rent.

46—Mortgage interest rates during 1949 will continue about the same as in 1948. Any changes will be toward increases.

Politics 47—The administration will encourage legitimate new enterprises and full employment, continuing its loyalty to labor and the farmers.

48—Vacancies in the various commissions and government corporations organized since 1932 and which have great powers will be filled by men acquainted with legitimate business but friendly to Mr. Truman.

49—Congress will take our foreign policy out of the hands of the state department and the brass hats.

50—The administration will be fair both to labor and management or lose the congressional elections of 1950 by bringing on depression.

Recreation Center Will Be Scene Of Party Tonight

The recreational center, Shepard street, Morehead City, will be the scene of a gala New Year's Eve Cabaret party Friday night, Dec. 31. The entire building, the former USO, will be set up as a large night club with tables and favors for all. Dancing will be in order from 8:30 p.m. until 12:30 a.m. and at midnight the New Year 1949 will be royally ushered in with a grand welcome.

The party is being sponsored by the recreational center and Teen Age club and is open to the public. Proceeds will help defray the maintenance expense of center.

There will be plenty of fun for young and old, announced Mrs. Harold Sampson, teen-age club advisor. There will be paper hats, noisemakers, confetti, serpentes, horns, balloons and streamers. The USO was famous for its elaborate New Year's parties and Mrs. Sampson promises that this New Year's party will be one long to be remembered.

Admission will be 75 cents per person. Teenagers holding membership cards will be admitted for 50 cents.

Firemen Busy During Weekend

Christmas weekend certainly was a merry one for Morehead City fire department. They were on the run Saturday, Sunday, and Monday. Beaufort fire department answered one alarm Sunday night.

A false alarm was turned in at 24th and Fisher streets Saturday night. An overheated water heater in the home at 2908 Evans street threatened to become a serious fire at 4:30 Sunday morning but damage was slight. A stove caught fire in a colored home at 1:30 Sunday afternoon, 1902 Avery street, but damage was negligible.

Ten minutes later another alarm was turned in at box 16. An overheated tube caused a small fire at the home of Frederick Fulford, between 6th and 7th streets on Fisher.

The largest fire, however occurred at 11:30 Sunday morning at the home of Jennings Bynum, colored, in the 500 block Fisher street, Morehead City.

Flames, starting around a defective flue, caused damage close to \$1,000. The loss is covered by insurance. The fire was confined between the ceiling and the roof. Loss in the lower part of the house was due to water and smoke.

The temperature was below freezing and the firemen had a cold time fighting the blaze. It was brought under control, however, in a short time.

There was a slight fire about pipes beneath the home of James Howland, Shepard street, at 4 Monday afternoon. Damage was negligible, firemen reported.

Oil and brush afire near the home of Clyde Edwards in the vicinity of the Tide Water power plant, Beaufort, at 10:55 caused the fire truck to be called out. The fire burned itself out while firemen stood by.

Mechanical transmissions in automobiles have at least nine gears.

Weatherman Says Fair Tomorrow

The weatherman's prediction for New Year's day is for fairer weather than the county experienced at Christmas time: sunny, cold and rather windy.

Everyone shivered in his boots Christmas and the day after when the lowest temperature reading was 18, according to E. Stamey Davis, Morehead City, official weather observer.

On Christmas day there was a "hominny snow," Mr. Davis reported. "Some people called it sleet, but sleet doesn't freeze until it reaches the ground. Hominny snow is snow that melts when it reaches the ground," he explained.

Rain fell Dec. 24, 25, and 26 with a heavy frost on the 27th. Rain started again Wednesday night.

The Miami weather bureau ordered small craft warnings hoisted at noon Wednesday for the coastal area south of Cape Hatteras to Brunswick, Ga. Warnings were to remain on display until noon yesterday for southerly winds of 25 to 30 miles an hour, shifting to northwesterly and diminishing.

Forecasters said a low pressure area over the Mississippi valley was influencing a wide area of the country.

Temperatures in Carteret county since last Thursday are as follows:

	Ma.	Min.
Thursday	54	38
Friday	44	35
Saturday	42	20
Sunday	33	18
Monday	46	23
